**MADHUSUDAN JHUNJHUNWALA**  
1941 - 2021

As we mark the second year since Mr. Madhusudan Jhunjunwala's (founder and ex-chairman) passing, we find solace in the memories we shared, the lessons we learned, and the vision he instilled within us over last 28 years. He departed from this world on July 19, 2021. We reflect on the profound impact he had on our lives, on our organisation, and on the legacy he left behind.

In his role as the foundation stone of our company, he laid the groundwork for growth, innovation, and transformation. His visionary leadership, his wisdom, and his commitment were instrumental in guiding us through a journey of change and progress. His thought process and insights have become an integral part of each employee, illuminating our path and shaping our collective mindset. We remember how his ideas and values inspired us to transcend the boundaries of tradition, propelling us from humble yarn producers to a renowned name in the yarn manufacturing industry. His legacy lives on in every thread of innovation, in every milestone achieved, and in the unity of purpose that binds us as a team. May his legacy forever remain a beacon of inspiration, reminding us that with determination, vision, and passion, we can achieve greatness. We carry his memory in our hearts as we honor his contributions to our company and our lives.

*In a world that seeks the short cut,  
he advocated integrity and perseverance.  
In a world that champions aggressive growth,  
he recommended a blend of speed and caution.  
In a world that trusts safety and convention,  
he inspired us to think different and embrace change.*

## Chairman's Speech

With immense pleasure I present to you our Company's 30<sup>th</sup> Annual report. This report encapsulates the performance of our Company throughout the fiscal year 2022-2023. A year that brought both challenges and opportunities, and a year that truly tested our resilience and determination.

In a dynamic and ever-evolving business landscape, we navigated through various challenges that impacted our industry. From geopolitical tensions to rising energy costs, inflationary pressures, and disruptions in global supply chains, we encountered numerous obstacles. Despite these hurdles, I am proud to announce that our company emerged stronger and more resilient. The past fiscal year demanded solid commitment and a steadfast approach. Our team exhibited unparalleled dedication, enabling us not only to weather the storm but also to thrive amidst challenges.

When evaluating the performance of fiscal year 2022-2023, it is crucial to consider it in the context of the preceding fiscal year, 2021-2022. The latter period witnessed substantial revenue growth due to unique circumstances following the aftermath of COVID-19 restrictions. This growth resulted from increased sales volume due to pent up demand from the market and precautionary stockpiling by buyers. The subsequent stabilisation coupled with escalating energy costs in the global market, notably in Europe, led to a slowdown in sales and destocking of inventory in the global textile market.

In this fiscal year, our Company experienced a 10% decrease in revenue, totalling INR 387 Crore, owing to lower realisation on the back of correction in key raw material prices. The EBITDA margin also contracted from 21% to 17%, mainly due to high-cost inventory affecting our profitability. Despite the aforementioned challenges, it's noteworthy that our company managed to deliver industry leading margins. Our company remains committed to deliver operating margins exceeding 20%, driven by higher share of value added products, which currently stands at 50%. Our financial resilience is evident in our prudent approach to capital allocation. In the past year, our

debt-to-equity ratio decreased to 0.24 from 0.31 in FY21-22. As a net cash company, we are dedicated to achieving the status of a gross debt-free entity in the years to come. Moreover, our Company has achieved a remarkable feat by maintaining a 100% customer retention rate, and even successfully acquiring new customers throughout the year. This impressive accomplishment can be largely attributed to our company's strong dedication to a customer-centric philosophy, which has enabled us to build strong relationships and ensure satisfaction among our clientele.

Our Company executed its expansion strategy within the existing facility, enhancing high tenancy yarn capacity. Noteworthy advancements include increasing Nylon 66 capacity from 1 TPD to 3 TPD and Nylon 6 capacity from 3 TPD to 8 TPD. A total of INR 57 Crore was strategically invested in capacity expansion and plant modernisation. These strategic investments in high-demand product categories are anticipated to increase sales volumes, realisations, and margins, consequently driving revenue to surpass INR 600 Crore in peak utilisation. These product categories, in high demand and requiring reliable supply chains, feature our Company as a trusted brand in this field. We anticipate minimal or negligible gestation period between the commissioning of these expanded capacities and their attainment of rated capacity utilisation. Notably, the funding for these strategic investments will be derived from internal accruals. We anticipate this approach will facilitate favorable margins, thereby rendering the investment proposition quite appealing. This cyclical process is envisioned to establish a sustainable and perpetuating cycle of value generation for our Company.

Our outlook for the future is characterised by a strong sense of optimism, bolstered by the ongoing encouraging trends in our product inquiries. Even though buyers preferred purchasing product volumes in line with demand quantities rather than stockpiling, our Company has seen continued interest in its products throughout the year. The support from our customers has boosted our confidence, especially as we look ahead to a strong recovery

in the latter part of FY24. It's worth noting that both our domestic and export markets are experiencing favorable traction, indicating a rising demand for our products. We are also committed to enhancing our brand visibility through active participation in various events and exhibitions. These efforts aim to increase awareness and recognition of our products in the broader market. A significant focus is on the changing trends in the Indian market. We have strategically realigned our focus to adapt to these shifts, which is expected to open up substantial growth opportunities within the domestic market. This strategic shift is poised to act as a catalyst for our overall growth trajectory. As we look forward, optimism courses through our veins. The challenges we have overcome have not only fortified us but also illuminated the path forward. Our commitment to excellence, combined with our ability to adapt swiftly, will continue to be our guiding stars. Our focus remains firmly fixed on seizing emerging opportunities, harnessing technological advancements, and aligning with sustainable practices.

I would like to extend my heartfelt gratitude to our stakeholders i.e. our valued investors, loyal customers, dedicated employees, and supportive partners. Your consistent trust in our vision and mission has been the cornerstone of our achievements. This journey wouldn't have been possible without your continuous support. Thank you for being an integral part of our success. I eagerly anticipate another year of collaboration, growth, and accomplishments together.

- KRISHNA JHUNJHWALA  
Chairman & Managing Director

## COMPANY AT A GLANCE

An ISO 9001:2015 certified company, Sarla Performance Fibers Limited stands as a pinnacle in the textile domain. Being a dedicated 100% export-oriented unit, we specialise in the production and global export of polyester and nylon textured, twisted, and dyed yarns, along with covered yarns, high tenacity yarns, and sewing thread. Our inception as a manufacturer of basic yarns has evolved into a strategic shift, establishing us as a supplier of intricate, high-value yarns. Our forte lies in tailoring products to meet each customer's unique requirements, epitomizing customization at its finest.

### Promoter

Founded on the ethos of a closely-knit family-run enterprise, our operations are infused with a professional outlook across all business facets. This ethos is further bolstered by our enduring market presence and the profound expertise of our promoters. Sarla not only embodies credibility and sustainability but also thrives in the realm of continuous growth. At Present, Mr. Krishna Jhunjhunwala is holding the position of Chairman and Managing Director.

### Manufacturing Facilities and Process

Benefitting from our cutting-edge infrastructure, we possess the capability to fulfil tailored orders spanning from hundreds to thousands of kilograms. Operating our corporate headquarters from Mumbai, India's commercial hub, our manufacturing prowess thrives at strategically situated facilities in Silvassa, Dadra, and Vapi - situated approximately 160 km north of Mumbai. Silvassa houses our prime manufacturing units, positioned in close proximity, with a supplementary unit in Dadra, just 10 km away. These vertically integrated facilities span the spectrum from spinning to advanced technology for high bulk high stretch polyester and nylon muffs and hanks. Our in-house bonding and kingspool winding amplify our prowess, yielding an impressive array of over 250 distinct value-added yarns and threads - tailored to niche and individual customer needs.

Today, Sarla boasts India's most extensive capacity in air covering, single and double conventional covering. Our revamped dyeing

facilities in Vapi, within the Gujrat Industrial Development Corporation, are armed with state-of-the-art technology capable of dyeing any fiber, from stretch nylon to textured sewing thread and high tenacity yarns. Boasting a Colour Bank comprising over 5000 shades, our laboratory conjures an average of 8 new colours daily. Digital colour matching, guided by certified technicians, ensures precise shade replication.

Our automated dyeing vessels and systems, accommodating batch sizes of 1 kg to 500 kgs, guarantee consistent execution, promising the perfect shade in every order. Each of our facilities bears ISO 9001:2015 certification, underlining our meticulous management standards. At Sarla, we uphold a creed of constant innovation and technological advancement. With an average machine age under 5 years, one of the industry's shortest, we deliver quality products at competitive prices - a testament to our commitment to excellence.

### Product Portfolio

## STORY IN CHARTS

# Sarla's Green Policy

“SPFL will pursue knowledge, practices, and decisions encouraging environmentally friendly and ecologically responsible manufacturing operations which will help protect the environment and sustain its natural resources for current and future generations.”

- **Krishna Jhunjhunwala,**  
Chairman and Managing Director

**SARLA** places a strong emphasis on its green policy by investing significantly in windmill and solar plant technologies. These renewable energy initiatives align with the company’s commitment to sustainable practices. The establishment of windmill plants allow the company to generate clean electricity using natural resources, reducing both carbon emissions and reliance on non-renewable energy sources. Similarly, the incorporation of solar plants harnesses the power of the sun, showcasing the company’s dedication to minimising its environmental impact. These initiatives not only contribute to a greener planet but also set a positive example for the industry, highlighting the compatibility of business growth with environmental responsibility.

The company has taken significant strides in its commitment to green energy solutions, evident through its installed solar and windmill capacities. With a total installed solar capacity of 1.40 MW, the company is able to generate approximately 14 Lacs Units of clean electricity per year. Complementing this, the incorporation of windmill technology further enhances its sustainable energy efforts. The company has harnessed wind energy with a total installed capacity of 1.25 MW, yielding an approximate annual generation of 20 Lacs Units. Impressively, this wind energy output accounts for approximately 62% of the energy consumption at its Vapi Plant. Expanding its impact, the company has also contributed to the broader energy landscape with an additional 11.5 MW of windmill capacity across various locations in the country. This clean energy, amounting to an estimated generation of 170 Lacs Units, is supplied to various state electricity boards. Through these endeavours, the company not only ensures its own environmentally responsible operations but also plays a vital role in advancing clean energy availability for the nation.

# Our Key Values and Resources

## Financial Capital

✓ We seek financial resources through investments from various sources, including investors, promoters, banks, and financial institutions. These funds are acquired in the form of debt, net worth, or earnings by Sarla. As of March 31, 2023, the Company had a total employed capital of Rs. 500.28 Crore.

## Manufactured Capital

✓ Our manufactured capital consists of our manufacturing infrastructure, technologies, and equipment. The efficient transfer of raw materials and finished goods is a crucial part of our manufacturing capabilities. The Company reported a gross block of Rs. 431.37 Crore on its balance sheet as of March 31, 2023.

## Human Capital

✓ Our workforce includes management, employees, and contract workers who collectively bring valuable experience and expertise. As of March 31, 2023, the Company's total workforce, including contractual staff, numbered 1,162.

## Natural Capital

✓ Our production process indirectly consumes raw materials sourced from nature, such as crude oil, which is transformed into naphtha and then polyester. This process has a moderate impact on the natural environment. Additionally, 70% of our energy is derived from non-renewable sources linked to coal.

## Intellectual Capital

✓ With 28 years of business experience, serving 298 customers across 60 countries by March 31, 2023, we have amassed proprietary knowledge that contributes to our operational excellence and competitive edge.

## Social and Relationship Capital

✓ Our responsible corporate citizenship is defined by our relationships with communities and partners, including vendors, suppliers, and customers. As of March 31, 2023, the Company had 18 equipment vendors, 93 raw material suppliers, and approximately 283 customers.

## Defining Value at Sarla: Our Approach to Measuring and Delivering Excellence:

We firmly hold the conviction that within the organisational framework, true value is generated through a concerted endeavour to cater to the diverse needs of all stakeholders. This principle is in line with our fundamental belief that the essence of business value can only be authentically manifested by creating value across the spectrum of stakeholders involved.

**The Employees** are meticulously nurtured to evolve into domain experts, thereby propelling both their professional advancement and our growth fuelled by knowledge capitalisation.

**The Vendor** collaborations provide insights into our dynamic product landscape and evolving process requisites. This vantage point empowers them to tailor bespoke raw materials and manufacturing apparatus that impeccably align with our unique demands.

**The Customers** who partner with us savour tailor-made solutions, transcending conventional product dissemination. This strategic approach invariably heightens the competitive edge of their downstream offerings.

**The Shareholders** reap dividends and potential capital appreciation, nurtured by an enriched understanding of our elaborate operations.

**The Government** entities derive multiple benefits including rising employment opportunities, regulatory adherence, and substantial tax contributions, fostering a symbiotic relationship.

Our commitment to stakeholders and our broader societal footprint stands as a testament to this holistic prosperity.

## MANAGEMENT DISCUSSION AND ANALYSIS

### Global economy: Current Scenario

In 2022, the global economy, advancing toward the 2030 SDGs, faced severe shocks intensified by COVID-19. The Ukraine conflict exacerbated the crisis, disrupting food and energy markets, escalating food insecurity. High inflation eroded real incomes, spiking living costs. Persistent climate emergencies caused widespread economic losses and humanitarian crises due to extreme weather events. In 2023, the global economy is cautiously rebounding from COVID-19 and Ukraine-related challenges. Positive signs include the pandemic's official end, restored supply chains, and resilient Q1 2023 economic activity, especially in labor markets. Lower energy and food prices post-conflict have eased global inflation. Swift containment of financial instability after March's banking turmoil is attributed to proactive US and Swiss interventions.

### Global economy: Near-term Outlook

Global economic growth is projected to decline from 3.5% in 2022 to 3.0% in 2023 and 2024, despite signs of recovery. This shift is attributed to factors in advanced economies, including weakened manufacturing and other variables, offsetting strong performance in the services sector. The growth rates for 2023-2024 are notably below the historical average of 3.8% from 2000 to 2019. However, emerging markets and developing economies are expected to maintain steady growth during this period.

### Indian Economy Overview

In FY23, despite global challenges such as geopolitical tensions, energy crises, and inflationary spikes, the Indian economy achieved sustainable growth and macroeconomic stability. It withstood triple shocks from the pandemic, the Russian-Ukraine conflict, and global policy rate hikes, showcasing exceptional resilience. India's current account deficit reduction marked a significant trade achievement, underscoring its economic strength.

Private consumption and capital formation were key drivers of India's

economic growth in FY23. The central government's capital expenditure surged by 63.4% in the initial eight months. Lower international commodity prices, proactive government policies, and strategic monetary tightening by the RBI contributed to controlling domestic inflation. The National Statistics Office estimated a 7% GDP growth rate for FY23, slightly lower than the previous year's 9.1% but outpacing other major economies. The IMF projects India as the fastest-growing economy in FY24. Despite global uncertainties, both the Economic Survey 2022-23 and the RBI forecast a 6.5% growth rate for India in FY24. This progress underlines India's economic potential and resilience.

### Outlook

In FY23, the Indian economy demonstrated remarkable resilience and successful policy implementation amid global challenges. Factors like private consumption, capital formation, and effective government interventions contributed to its strong performance. Despite uncertainties, the government's fiscal responsibility and targeted actions position India well for the coming year, with flexibility in policies to adapt to global trends.

The expected decline in inflation and increased public capital expenditure are anticipated to drive domestic growth. This aligns with the government's focus on infrastructure development, fostering job creation and economic activity. Moving into FY24, India anticipates accelerated growth propelled by robust credit allocation and increased capital investments. Strengthened balance sheets in both the corporate and banking sectors provide a solid base for this expansion.

The expansion of public digital platforms and transformative initiatives like PM GatiShakti, the National Logistics Policy, and Production-Linked Incentive schemes are set to revolutionize manufacturing, offering an extra boost to economic growth. As India looks ahead to FY24, strategic investments and forward-thinking initiatives have paved the way for

sustained growth, reshaping sectors and propelling the economy to new heights.

### Global Textile Market

The global textile market has demonstrated substantial growth, expanding from \$573.22 billion in 2022 to \$610.91 billion in 2023, with a 6.6% Compound Annual Growth Rate (CAGR). This expansion is projected to continue, reaching \$755.38 billion by 2027, with an anticipated CAGR of 5.5%. In 2022, Asia Pacific claimed the largest market share, followed by Western Europe.

Concurrently, the global fashion e-commerce market is experiencing significant growth, set to increase from \$744.4 billion in 2022 to \$821.19 billion in 2023, with a CAGR of 10.3%. This trend is expected to persist, with the market projected to reach \$1,222.32 billion in 2027, supported by a CAGR of 10.5%. The proliferation of internet and smartphone usage is driving this growth by facilitating fashion e-commerce expansion. Online platforms for textile-based goods are gaining traction, boosted by a rising demand for apparel across various age groups.

In 2022, global market demand dynamics, particularly in the United States and Europe, presented a complex scenario with both encouraging and challenging trends. Consumer deferment of non-essential purchases led to demand contraction. Factors like higher-than-target inflation, Russian-Ukraine conflicts, European energy crisis, and China's reopening influenced this cautious approach. As a result, global brands and retailers adopted careful strategies, preferring smaller purchases and procurement closer to secondary demand triggers.

### Outlook

The initial two quarters of the period also witnessed substantial inventory build-up within supply chains, primarily driven by key buyers who advanced their purchasing to pre-empt potential shipping delays. Towards the close of the fiscal year, there were signs of improvement, with export markets showing a slower-than-expected slowdown.

Furthermore, raw material prices have undergone a substantial correction from their peak levels. The macroeconomic environment in the US and European markets began to display some positive shifts in outlook, though an air of caution still prevailed. While the global textile market is expected to experience an improvement starting from the second half of 2023, it is likely to be marginal.

### The Indian textile and apparel industry

The textile and apparel sector in India holds a significant position in the country's economy, contributing 2.3% to the GDP and serving as the second-largest employer. With a strong influence, it makes up 14.0% of manufacturing output and 10.5% of export earnings. Globally, India ranks as the third-largest exporter of textiles and apparel, with a combined share of 11.4% of exports in 2020-21. The sector employs around 35 million people, showcasing its role as a livelihood provider. India's textile and apparel industry covers the entire value chain from fiber to clothing, encompassing diverse segments including handloom, handicrafts, and modern textile production. The organized sector employs capital-intensive technologies for large-scale production. India's apparel market ranks fourth globally, and it's projected to reach around 38.9 billion pieces by 2027.

The Indian textile and apparel market was valued at \$172.3 billion in 2022, benefiting from increased demand for premium-quality clothing and footwear. The government's support through production-linked incentive (PLI) schemes and access to various raw materials like cotton, wool, and silk are driving growth. Sustainability practices, such as adopting vegan materials, are gaining traction. E-commerce platforms are expanding distribution channels for premium fabrics and apparel, and the growing awareness of the environmental impact of fast fashion is driving demand for more durable products. The Indian textile and apparel market is projected to reach \$387.3 billion by 2028, with an impressive CAGR of 14.6% from 2023 to 2028, according to the IMARC Group's projections.

### Global Yarn, Fiber, and Thread market

The global yarn, fiber, and thread market is poised for growth, projected to increase from \$103.0 billion in 2022 to \$110.2 billion in 2023. This growth is driven by factors like emerging markets, urbanization, demand for man-made fibers, government initiatives, rising disposable incomes, and technological advancements. However, the Russia-Ukraine conflict has disrupted global economic recovery from COVID-19, causing economic sanctions, commodity price spikes, and supply chain disruptions, leading to inflationary pressures worldwide. Despite challenges, the market is anticipated to reach \$138.9 billion by 2027, with a 6.0% CAGR. Population growth, urbanization, e-commerce, sportswear demand, organized retail expansion, and social media influence will fuel this growth. However, constraints on free trade, competition, and cotton shortages could hinder progress.

Asia Pacific dominates the market, with a 71.5% share in 2020, while North America and other regions follow. South America and the Middle East are expected to experience the fastest growth, with impressive CAGRs of 20.7% and 18.4% respectively. Africa and Asia-Pacific also show promising growth with CAGRs of 14.2% and 13.5%. India plays a significant role in the global cotton yarn market, holding the second-largest yarn spinning capacity. The country's production of over 4,700 million kilograms of spun yarn includes more than 3,400 million kilograms of cotton yarn, constituting 73% of total yarn production.

### Indian yarn market

India's yarn industry is highly versatile and efficient, catering to a wide range of applications. The country produces various types of yarn, including combed, non-spun, carded, compact, fancy, and melange yarn. With more than 1,943 yarn spinning mills, India's production covers a broad spectrum, offering yarn counts from fine 200 to coarse 2, depending on the material.

Indian yarn spinners have embraced advanced technologies such as compact spinning and integrated

tools like splicers, auto-coners, and electric cleaners. This strategic adoption gives them a competitive edge, making Indian yarn popular in foreign markets. China is a primary importer of Indian yarn. Yarn pricing depends on key raw material costs like mono-ethylene glycol, fibers, and purified terephthalic acid, which significantly influence the final yarn price.

The Indian yarn industry has significant untapped potential. With proactive government support, including reduced import duties, central excise duty cuts, tax adjustments, and strategic investments, the industry is poised to lead the global market. This support positions India to become a major player in the international yarn market.

### Man Made Fiber (MMF) Overview and Outlook

The global textile sector is undergoing a significant transformation driven by changing fashion trends and limitations in natural fiber growth. As of 2022, the market for Man-Made Fibers (MMFs) was valued at approximately \$63.93 billion, with projections indicating potential growth to around \$93.03 billion by 2030. MMFs are categorized as synthetic and cellulosic fibers. Synthetic fibers are derived from crude oil, while cellulosic fibers originate from wood pulp. Currently, MMFs account for 75% of global fiber consumption, with a strong focus on polyester, a leading and expanding synthetic fiber. Nylon is also emerging as a contender due to its strength and flexibility.

The industry relies on MMFs due to their adaptability and performance characteristics. This expansion is driven by demand across sectors like automotive, construction, apparel, industry, and medicine. Technological advancements enhance MMFs' durability and versatility, making them applicable in various industries. Their usage is rising in textiles and apparel due to features like wrinkle resistance, colorfastness, durability, and easy maintenance.

### India Man Made Fiber Industry:

The Man-Made Fiber (MMF) sector in India is experiencing rapid growth,

positioning itself as the second-largest global producer of cellulose fiber/yarn and synthetic fiber. Polyester dominates with around 77.5%, while viscose makes up about 16.5%. This sector contributes 17% to India's textile exports, making India the sixth-largest MMF textiles exporter. The rise in MMF demand is driven by nonwovens, technical textiles, health consciousness, brand awareness, and fashion trends, especially in technical and medical textiles.

Government policies like the Production Linked Incentive (PLI) and the Remission of Duties and Taxes on Exported Products (RoDTEP) schemes are driving forces. 100% foreign direct investment (FDI) and Free Trade Agreements (FTAs) contribute to sustained growth. A significant sustainability trend is using recycled bottles in polyester production, addressing environmental concerns and meeting eco-friendly demand. With government support, strategic initiatives, and sustainability practices, India's MMF market is promising. Multifaceted growth drivers, responsiveness to trends, and sustainable innovations position the sector for positive and enduring growth.

#### Government Initiatives:

The Indian government's commitment to promoting and bolstering the growth of the textile industry in the country. The initiatives cover a wide range of areas, from trade agreements and foreign direct investment to incentives for manufacturing and exporting specific textile products, as well as schemes aimed at improving technical textiles, infrastructure, and energy efficiency. Here's a summary of the key points:

**Production-Linked Incentive (PLI) Program:** The government is providing incentives for the production and export of specific textile products made from synthetic fibers, with a dedicated fund of INR 10,683 crore (USD 1.44 billion) to enhance competitiveness and scale.

**Rebate of State and Central Taxes and Levies (RoSCTL):** The scheme offers rebates on Central and State taxes for exporters of garments and

made-up products, aiming to enhance the international competitiveness of the textile sector. It has been extended until March 31, 2024. **Free Trade Agreements:** India is actively engaged in bilateral trade negotiations with partner countries to improve export capacity, with tariff-free access to Japan and agreements with Australia. Negotiations for FTAs are ongoing with the EU, UK, Canada, Israel, and others.

**Foreign Direct Investment (FDI) Policy:** The liberalized FDI policy allows up to 100% FDI through the automatic route, resulting in significant investments of USD 1522.23 million between 2017 and 2022.

**Mega Integrated Textile Region and Apparel (MITRA) Parks Scheme:** The government is establishing Pradhan Mantri MITRA Parks to enhance global competitiveness, attract investments, and generate employment.

**Scheme for Integrated Textiles Parks (SITP):** This initiative is designed to facilitate the creation of state-of-the-art infrastructure facilities for the establishment of textile units.

**National Technical Textiles Mission:** A mission for four years (FY 2021 to FY 2024) focuses on integrating technical textiles across various sectors with an allocation of INR 14.8 billion.

**Textiles Technology Development Scheme (TTDS):** Planned to replace TUFS, this scheme aims to develop comprehensive manufacturing capabilities and advanced technology adoption with an investment of INR 16,635 crore over five years.

**SAATHI Initiative:** A collaborative effort with the Ministry of Power to provide energy-efficient equipment to power loom units, supported by a fund of INR 1,000 crore for technical textiles research and development.

**Budget Allocation:** The FY 2023-24 budget reflects a substantial increase in support for the textile industry, totaling INR 4,389.2 crore (USD 536.4 million), demonstrating a 22.6% rise from the previous year's budget.

### Core Competencies and Growth Strategies

#### Harnessing Robust Manufacturing Facilities and Advanced Capabilities:

Sarla operates advanced manufacturing facilities in Silvassa, Vapi, and Dadra, with a legacy spanning three decades. Their expertise in manufacturing various man-made yarns is evident in their diverse product portfolio. This includes polyester and nylon textured yarns, twisted yarns, dyed yarns, covered yarns, high-tenacity yarns, and specialized sewing threads for specific applications. Notably, Sarla is unique as one of the few companies producing pure nylon and the sole Indian manufacturer of Nylon 66. In the polyester market largely dominated by major corporations, Sarla stands out as a distinct organized entity with a robust customer base and vertically integrated nylon manufacturing. They focus on customization, processing orders from hundreds to thousands of kilograms. The company has invested around INR 100 crore over five years in modernizing equipment, resulting in a significant portion being new and supporting infrastructure improvements.

Implementing SAP has enhanced overall efficiency, offering meaningful insights from business data in a user-friendly format. Detailed information about machine breakdowns, spare parts, and replacements is captured, allowing for machine-level profitability evaluation. This strategic approach has led to minimized yarn breakage, increased machine speed, consistent quality, higher productivity, and improved uptime. Sarla's prudent expansion strategy aligns with substantial order book visibility, ensuring operational efficiency and strategic growth. Sarla's commitment to innovation, efficiency, and strategic growth underscores its position as a prominent player in the textile industry.

#### Driving Business Transformation by Expanding Share of Value-Added Products

Sarla's journey began in the commoditized yarn manufacturing

sector, primarily serving the clothing industry. However, the company strategically shifted its business focus over time towards producing value-added products. This transformation involves emphasizing high tenacity nylon and polyester yarns and other specialty yarns that cater to specific industries such as sportswear, military gear, and sewing threads. Around 50% of the product portfolio now consists of these value-added offerings, reflecting the company's commitment to meeting evolving industry needs with high-performance and durable yarn solutions.

In the current fiscal year, the company successfully launched operations for the production of high tenacity nylon (6 and 66) flat and twisted yarns. This strategic move is expected to shift revenue composition towards value-added products and enhance overall profit margins. While initial operational utilization is projected at ~50% for FY2024, the full impact is anticipated in FY2025. Increased capacities for nylon 66 and nylon 6 underscore the commitment to meeting growing demand for these products.

Currently, nylon yarn accounts for about 42% of the company's production volume. Projections indicate a potential increase to around 60% within a couple of years, leading to improved efficiency. Leveraging the company's strong brand reputation, Sarla anticipates a swift transition to full capacity utilization, contributing to increased sales volumes, higher realizations, and improved margins. Sarla's strategic shift towards value-added products positions it for growth, profitability, and continued success in catering to diverse industry demands.

#### Emergence of India as a New Market Fuels Geographical Diversification

A noticeable shift in sales trends has been observed in the Indian market, indicating the emergence of a new consumer segment characterized by an inclination towards enhanced lifestyles and a willingness to invest in higher quality products. This shift has led to substantial results, with the company achieving a significant

48.3% revenue contribution from the Indian market in the past fiscal year. As the revenue base expands, a projection of 55%-60% of total revenues originating from India over the next two years strengthens the outlook for sustained growth in the Indian market.

India's relatively young demographic, with a median age of around 28, signifies a long income runway for its economically active population. This demographic advantage is driving increased demand for premium clothing, athleisure wear, and higher-frequency wardrobe updates, creating a favorable landscape for consumer products. This consumer behavior shift is also evident in India's innerwear sector, with brands recalibrating towards the premium segment. Sarla's role as a leading manufacturer of elastic, socks, and sewing threads is recognized as it provides materials for innerwear elastic applications.

The emergence of this new Indian consumer profile is marked by economic autonomy and reduced sensitivity to pricing fluctuations. This has accelerated growth in premium and upper mid-priced market segments, aligning domestic and international price realizations. In response, Sarla plans to direct value-added yarns to the Indian market, aligned with evolving consumer preferences. As part of its growth strategy, Sarla intends to add 20 sales personnel for its Indian operations within two years to bolster market representation and penetrate pivotal markets. This proactive approach is expected to contribute to an annual sales growth of 20% in the Indian market and a 10% share of the overall sales landscape, highlighting the company's commitment to harnessing India's consumer potential.

#### Company Products Find New Horizons Across Industries

The increasing demand for man-made fibers over natural fibers can be attributed to their versatility, strength, durability, consistency, availability, and ease of care. Man-made fibers, also known as synthetic fibers, offer unique properties and benefits that make them popular in various industries and applications.

They can be engineered with specific properties like moisture management, insulation, and anti-microbial characteristics, making them suitable for specialized uses such as sportswear, medical textiles, and outdoor gear. Both nylon and polyester have become essential materials for creating a wide range of products due to their attributes like stretchability and strength. The integration of specialized treatments and finishes further enhances their qualities.

Nylon is emerging as a compelling choice due to its superior durability, enhanced quality, and appealing attributes. With an 8% moisture absorption capacity compared to polyester's 0.4%, nylon offers advantages in moisture management. It also features increased crimp rigidity, making maintenance easier and contributing to its growing appeal as an alternative to polyester. Its benefits extend to color retention, resistance to ultraviolet light, endurance through commercial laundering, softness, tactile quality, and shine, making it suitable for various applications including baby wear. High tenacity polyester yarn contributes to fabric longevity, with applications in automotive seat belts, airbags, footwear, and more. Polyester stretch yarn is used in sportswear and running socks due to its softness, warmth, moisture-wicking properties, quick drying, color retention, affordability, and durability. Sarla is capitalizing on the growth of the medical industry by leveraging the properties of nylon in medical textiles, implants, catheters, devices, and orthopedics, contributing to innovative medical solutions and enhanced patient care.

Despite the potential, the per capita annual consumption of synthetic fibers in India is lower than the global average, and nylon holds a small market share. However, the company initiated domestic marketing of nylon in response to the pandemic, and the positive reception suggests potential for domestic growth. Factors like rising disposable incomes, improved living standards, and a growing millennial population are expected to drive demand for man-made yarns like nylon in India, leading to an increase in the company's market share and demand.

### Global Export Business Set for Sustained Growth as Markets Expand and Trade Flourishes

Despite facing a challenging business environment marked by geopolitical tensions, high energy costs, inflation, negative consumer sentiment, and inventory build-up in the textile industry, our company has demonstrated resilience and sustainable performance in the international market. Even in such complex conditions, our export contributions have remained strong, accounting for a significant portion of our total sales. Our company's commitment to expanding export operations is evident through our efforts to venture into new markets. With a reputation as a reliable supplier of yarns to esteemed global brands, either directly or through intermediaries, we have maintained a solid revenue stream from long-standing clients. Our approach involves both direct promotion of our yarns and collaboration with trade intermediaries.

Our brand, Sarla, is respected for its reliability, consistent outcomes, and effective pricing strategies aligned with the value our products offer. International markets have provided better realizations for our products, and our presence extends to customers in 60 countries, with no single country constituting a dominant portion of our sales. This distribution highlights our company's global presence and diverse reach. Participation in international events and exhibitions plays a pivotal role in strengthening our international presence and enhancing brand visibility. These platforms provide opportunities to showcase our product innovation and capabilities, contributing to a stronger brand recognition and a wider reach in the global marketplace. Our product, nylon 66, holds a unique status as a high-value niche product designated exclusively for export. This distinction underlines its premium positioning in the market and contributes to higher realizations. Despite the challenges, our company's strategic efforts and commitment to quality have enabled us to maintain a strong international business performance and expand our presence across diverse markets.

### Cultivating Enduring Customer Relationships through a Client-Centric Approach

Our organization plays a pivotal role in not only providing products but also assisting our customers in expanding their market presence and integrating into their long-term supply chain. This collaborative approach has contributed to a steady and robust demand for our products, especially as many of our customers are making significant investments to scale up their production capacities. One of our remarkable achievements is retaining 100% of our customer base, a testament to the strong relationships we have built over the years. The fact that 90% of our current customer base consistently places repeat orders highlights the value and satisfaction they derive from our products. This high level of customer loyalty has prompted our management to make the strategic decision to increase production capacity to meet growing demand.

Our success in maintaining such strong customer relationships is founded on the trust and loyalty our clients place in our brand. The slogan "Once a Sarla customer, always a Sarla customer" reflects the enduring partnerships we have established. Our technology-intensive products seamlessly integrate with our customers' operations, solidifying our position as a reliable supplier. This mutual reliance ensures that our products continue to meet evolving customer needs, driving our ongoing success. Our commitment to technical marketing and proactive engagement sets us apart. By focusing on technical discussions rather than solely commercial ones, we emphasize the value our products bring to our customers' processes. Regular dialogues centered around product performance, enhancements, and strategies for mutual growth showcase our dedication to strengthening our customers' businesses. This approach goes beyond a mere focus on pricing; it demonstrates our dedication to being a true partner in our customers' success. By prioritizing our customers' enterprises and adding substantial value to their operations, we have not only earned their trust but also established a reputation as

a reliable and valuable collaborator in their growth journey.

### Maintaining Financial Health with Continuous Focus on Maintaining Fiscal Well-being

Our organization's financial management approach in the capital-intensive textile industry is indeed remarkable. By maintaining a surplus of net cash and achieving a 20% operating margin, we have positioned ourselves as industry leaders in terms of financial performance. Our strategic focus on managing debt and equity has ensured incremental growth while safeguarding financial stability. Our recent transition to eliminate debt, bolster net worth, and transform our financial landscape is particularly noteworthy. The reduction in our debt-equity ratio from 0.84 to 0.27 over a short period showcases our commitment to financial prudence and risk mitigation. This achievement is especially impressive considering the capital-intensive nature of the textile manufacturing sector.

This transition aligns well with our unique positioning as 'Untextile' and marks a significant milestone in our organization's evolution. By separating debt and equity for capital expenditure funding, we have not only strengthened our competitive edge but also established a low-risk foundation for scalable growth. This strategic shift positions us well to navigate market cycles and enhance shareholder value. Our approach to working capital management is equally commendable. The fact that 60% of the working capital sanctioned by banks remained untapped in FY 2022-23 reflects our cautious and resource-optimized approach. This commitment to maintaining liquidity and optimizing resources further contributes to our financial resilience. Our journey from debt reduction to enhanced net worth is a testament to our dedication to sustainable growth and enduring shareholder value. By focusing on financial excellence and prudently managing our financial resources, we have showcased our ability to navigate challenges and position ourselves for continued success in the textile industry.

## SWOT Analysis

### Strengths

- Vertically integrated operations foster production efficiencies
- Diverse product portfolio enables Sarla to cater to various industries
- Client-centric approach promotes robust clientele
- Net debt-free operations signify financial stability
- First movers advantage in high tenacity Nylon 6 and Nylon 66 products facilitate margin expansion
- Government support through various schemes bolsters confidence
- Three decades of experience in the textile industry drives excellence
- Focus on value-added products to transform financial landscape

### Opportunities

- Increasing demand for technical textiles in sectors such as automotive, healthcare, and sports.
- Growing awareness and preference for sustainable and eco-friendly fibers
- Expansion into the rapidly growing domestic synthetic textile market
- Rising global demand for sustainable and recycled synthetic fibers
- Collaboration with fashion designers and brands to promote synthetic fibers in high-end fashion
- Growing e-commerce penetration

### Weaknesses

- Fragmented industry with intense competition
- Limited focus on eco-friendly and sustainable synthetic fibers
- Dependency on petrochemical prices; vulnerability to fluctuations in raw material prices
- Large capex requirements

### Threats

- Intense competition and price pressure from domestic and global fiber manufacturers
- Regulatory changes impacting manufacturing processes or materials
- Environmental concerns impacting the image of synthetic fibers
- Fluctuating demand due to changing fashion trends and economic conditions
- Rising demand for natural and organic fibers
- Technological advancements in other materials that could replace traditional synthetic fibers

The Net profit margin has declined due to reduction in profit after tax and sales as compared to last financial year.

### Return on Network

The significant decrease is attributed to tax liability has occurred in Sarlaflex Inc., subsidiary and there is no corresponding from them.

### Interest Coverage Ratio

The decrease is due to reduced profits of the Company during the FY 2022-23.

### Revenue from Operations

During FY23, the company saw a 10% decrease in its revenue from operations, going down from INR 42,869 Lakhs in FY22 to INR 38,655 Lakhs. This drop was due to a global market slowdown, influenced by stockpiling of inventory and price correction in crude derivatives products such as polyester and nylon yarns. This situation caused a decline of 11% in the number of units sold, from 13,782 to 12,267 units. The reduction was mainly due to an excess of inventory in the global market. Interestingly, even with the price adjustments in final products, the company managed to increase its average realisation by 2.3%, led by higher proportion of value add products, which helped counteract the impact of price corrections.

### EBITDA and EBITDA Margin

In the fiscal year 2022-23, the company's EBITDA stood at INR 6,557, showing a decrease of 30% from the previous year's INR 9,302. This decline happened because of lower sales volume and reduced operating leverage. As a result, the EBITDA margin, which is the proportion of EBITDA to total revenue, declined from 21.7% to 17.0%.

### PAT and PAT Margin

The company's PAT in FY22-23 was INR 2,881, experiencing a significant drop of 45% compared to the INR 5,275 of the previous fiscal year. This decrease in profit was due to lower operating leverage and underutilisation of newly added production capacity. Consequently, the PAT margin, which indicates the proportion of PAT to total revenue, decreased from 12.3% to 7.5%.

### Interest Coverage Ratio (ICR)

Despite a decrease in EBIT during the year, the Interest Coverage Ratio (ICR) remained robust, declining from 20.2x in FY22 to 9.2x in FY23.

### Return on Capital Employed (ROCE)

ROCE declined a 38.53% from 12.90% in FY23 to 7.93% in FY22. This drop was attributed to reduced EBIT relative to the previous year,

stemming from lower volume and underutilisation of newly established capacity.

### Return on Equity (ROE)

ROE also saw a decline of 49.59%, falling from 13.45% in FY23 to 6.78% in FY22. This reduction was due to decreased EBIT compared to the previous year, influenced by factors such as decreased operating leverage, lower other income, and increased interest and depreciation costs.

### Debt Service Coverage Ratio (DSCR)

DSCR remained strong at 4.59x in FY23, although it declined by 24.13% due to lower EBIT compared to FY22's value of 6.05x.

### Net Working Capital Turnover (NWC)

NWC improved to 4.58x in FY23 from 3.46x in FY22, primarily due to a decrease in trade receivables and other financial assets compared to the previous year.

### Inventory Turnover

Inventory Turnover dropped to 4.21x in FY23 from 5.52x in FY22, mainly because of reduced cost of goods sold in relation to the average inventory.

### Trade Receivable Turnover

Trade Receivable Turnover increased to 4.76x in FY23 from 4.30x in FY22, primarily due to improved receivables recovery.

### Trade Payable Turnover

Trade Payable Turnover improved to 8.11x in FY23 from 10.68x in FY22, primarily due to better payment terms.

### Debt-Equity Ratio (D/E)

D/E saw a 22.58% improvement, decreasing from 0.31 in FY22 to 0.24 in FY23. This was a result of reduced debt and the reinvestment of profits into equity during the year.

### Current Ratio

The Current Ratio remained healthy at 1.28 in FY23, compared to 1.68 in FY22, primarily attributable to increase in proportion of investment compared to total assets.

### Return on Investment (ROI)

ROI experienced a slight decline, moving from 6.61% in FY22 to 6.53% in FY23.

## ANNEXURE VII

## CORPORATE GOVERNANCE REPORT

This report is prepared in accordance with the provisions of Regulation 34(3) read with Schedule V of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("SEBI Listing Regulations") and the report contains details of Corporate Governance systems and processes at Sarla Performance Fibers Limited ("SPFL" or "the Company").

In terms of the SEBI Listing Regulations, the details of compliance for the year ended March 31, 2023 are as follows:

**INTRODUCTION**

SPFL believes in fair business and corporate practices while dealing with the shareholders, employees, customers, creditors, lenders and others. The Company always aims to build trust with shareholders, employees, customers, suppliers and diverse stakeholders and to meet the expectation of various elements of corporate environment. The Company also believes in transparent and fair corporate actions with adequate disclosure and total accountability.

**1. COMPANY'S PHILOSOPHY ON CORPORATE GOVERNANCE:**

Corporate Governance is the combination of voluntary practices and compliance with laws and regulations leading to effective control and management of the Company. SPFL believes that Corporate Governance involves a set of rules and controls that promote transparency, integrity and accountability within which all stakeholders of the Company viz., its shareholders, directors and management, society and environment at large have aligned objectives. Your Company takes Corporate Governance as a critical tool to enhance trust of its Customers, Employees, Investors, Government and the Community at large and achieve its goal of maximizing value for its stakeholders while also being a positive influence in communities, by operating through responsible business practices.

Our Board together with the committees exercises its fiduciary responsibilities by ensuring not only to comply with the statutory requirements in letter and spirit, but also to aim at implementing the best practices, keeping in view overall interest of all its stakeholders and to manage the Company's affairs in a fair and transparent manner. Your Company ensures adequate, timely and accurate disclosure of all material matters including the financial situation,

performance, ownership and governance of the Company to the stock exchanges and the investors.

**2. BOARD OF DIRECTORS:**

- (i) Composition and Category of Directors:

As on March 31, 2023, the Composition of the Board of your Company is a fair mix of Executive, and Independent Directors, which is appropriate for the size and operations of your Company and is compliant with the applicable rules and guidelines. The Board comprises of six (6) Directors, of which three (3) are Executive Directors and remaining three (3) are Non-Executive Independent Directors. As on March 31, 2023, the composition of the Board is in conformity with Regulation 17 of the SEBI Listing Regulations read with Section 149 of the Companies Act, 2013.

## INDEPENDENT AUDITOR’S REPORT

### TO THE MEMBERS OF

### SARLA PERFORMANCE FIBERS LIMITED

### Report on the Audit of the Standalone Financial Statements

#### Opinion

We have audited the accompanying standalone financial statements of **Sarla Performance Fibers Limited** (‘the Company’), which comprise the Balance Sheet as at 31<sup>st</sup> March 2023, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended and notes to the standalone financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as ‘the standalone financial statements’).

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 (‘the Act’) in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards specified under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended (‘Ind AS’) and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31<sup>st</sup> March, 2023, its profit including other comprehensive income, changes in equity and its cash flows for the year ended on that date.

#### Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs), specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor’s Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI’s Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

#### Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Sr no	Key Audit Matter	Auditor’s Response
1.	<p><b>Litigations, Provisions and contingent liabilities</b></p> <p>The Company has litigations which also include matters under dispute involving significant Management judgement and estimates on the possible outcome of the litigations and consequent provisioning thereof or disclosure as contingent liabilities.</p> <p>Refer Note 45.1 to the standalone financial statements.</p>	<p><b>Audit procedures followed by us include:</b></p> <p>As part of audit process, we obtained from the Management details of matters under dispute including ongoing and completed tax assessments, demands and litigations. Our audit approach for the above consists of the following audit procedures:</p> <ul style="list-style-type: none"> <li>• Evaluation and testing of the design of internal controls followed by the Company relating to litigations and open tax positions for indirect taxes and process followed to decide provisioning or disclosure as Contingent Liabilities;</li> <li>• Discussed with Company’s management for sufficient understanding of on-going and potential legal matters impacting the Company;</li> <li>• We involved our internal experts, where necessary, to evaluate the Management’s underlying judgements in making their estimates with regard to such matters.</li> </ul>

<p>2. <b>Information Technology (IT) systems and controls over financial reporting</b></p> <p>We identified IT systems and controls over financial reporting as a key audit matter for the Company because its financial accounting and reporting systems are fundamentally reliant on IT systems and IT controls to process significant transaction volumes, specifically with respect to revenue and inventories. Also, due to large transaction volumes and the increasing challenge to protect the integrity of the Company's systems and data, cyber security has become more significant;</p> <p>Automated accounting procedures and IT environment controls, which include IT governance, IT general controls over program development and changes, access to program and data and IT operations, IT application controls and interfaces between IT applications are required to be designed and to operate effectively to ensure accurate financial reporting.</p>	<p><b>Audit procedures followed by us include:</b></p> <ul style="list-style-type: none"> <li>Assessed the complexity of the IT environment through discussion with the IT team and identified IT applications that are relevant to our audit;</li> <li>Evaluated the operating effectiveness of IT general controls over program development and changes, access to program and data and IT operations;</li> <li>Performed inquiry procedures with the IT team of the Company in respect of the overall security architecture and any key threats addressed by the Company in the current year;</li> <li>Evaluated the operating effectiveness of IT application controls in the key processes impacting financial reporting of the Company.</li> </ul>

#### Information Other than the Financial Statements and Auditor's Report thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Directors' Report including Annexures to Directors' Report, and Corporate Governance, but does not include the standalone financial statements and auditor's report thereon.

Our opinion on the standalone financial statements does not cover the Other Information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether such other information is materially inconsistent with the standalone financial statements, or our knowledge obtained during the course of our audit, or otherwise appears to be materially misstated.

When we read the other information, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

#### Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance

of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, the management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Management and Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

#### Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to standalone financial statements in place and the operating effectiveness of such controls;
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management;
- Conclude on the appropriateness of Management and Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern;
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation;
- Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### Report on Other Legal and Regulatory Requirements

- As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
- As required by Section 143(3) of the Act, we report that:
  - We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
  - In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
  - The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Changes in Equity and the Statement of Cash Flows dealt with by this report are in agreement with the books of account;
  - In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements comply with the Ind AS;
  - On the basis of the written representations received from the directors as on 31<sup>st</sup> March, 2023 taken on record by the Board of Directors, none of the director is disqualified as on 31<sup>st</sup> March, 2023 from being appointed as a director in terms of Section 164(2) of the Act;

## ANNEXURE A TO INDEPENDENT AUDITOR'S REPORT

**[Referred to in paragraph 1 under Report on Other Legal and Regulatory Requirements' in the Independent Auditor's Report of even date to the Members of Sarla Performance Fibers Limited ("the Company") on the standalone financial statements for the year ended 31<sup>st</sup> March, 2023]**

To the best of our information and according to the explanations provided to us by the Company and the books of accounts and records examined by us in the normal course of audit, we state that:

- (i) (a) (A) The Company implemented a new ERP system during the FY 2020-21 wherein full details of Property, Plant and Equipment (PPE) are yet to be integrated in the system. As at 31<sup>st</sup> March 2023, the Company is still in the process of updating details pertaining to full particulars including quantitative details and situation of PPE;
- (B) As mentioned above, the Company is in the process of integrating and updating details pertaining to full particulars of intangible assets;
- (b) The Company has a regular program of physical verification of PPE under which all items of PPE are verified in a phased manner over a period of

three years. This, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. During the year, though the Company has carried out physical verification of its PPE, in the absence of full particulars including quantitative details and situation of PPE, we are not able to comment on discrepancies, if any;

- (c) Based on our examination of the records provided by the Company and the confirmation for title deeds received from SBICAP Trustee Company Limited (STCL), we report that the title deeds of immovable properties (other than immovable properties where the Company is lessee and lease agreements are duly executed in favour of the lessee) are held in the name of the Company except in the following cases as disclosed in Note No. 4(b) to the standalone financial statements:

(Rs. In Lakhs)

Description of item of property	Gross carrying value	Title deeds held in the name of	Whether title deed holder is a promoter, director or relative of promoter / director or employee of promoter / director	Property held since which date	Reason for not being held in the name of the company
Freehold Land	3,028.83	Krishna Jhunjhunwala and Neha Jhunjhunwala	Yes	FY. 2016-17	Being agricultural land cannot be held in the name of the Company.
Freehold Land	69.33	Krishna Jhunjhunwala and Neha Jhunjhunwala	Yes	FY. 2022-23	The Company is in process of conversion of agricultural land to non-agricultural land.
Freehold Land	43.46	Krishna Jhunjhunwala	Yes	FY. 2022-23	

- (d) The Company has not revalued any of its PPE (including right-of-use assets) or intangible assets during the year;

- (e) As disclosed in Note No. 53 to the standalone financial statements, no proceeding has been initiated or is pending against the Company for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (45 of 1988) and rules made thereunder;

- (ii) (a) The Management has conducted physical verification of inventories at regular intervals.

In our opinion, considering the size of the Company, the coverage of such verification is reasonable and the procedures are adequate;

The discrepancies noticed on physical verification were not exceeding 10% in aggregate for each class of inventory and the same has been properly dealt with in the books of accounts;

- (b) As disclosed in Note No. 27 to the standalone financial statements, the Company has working capital limits sanctioned from banks

- f) With respect to the adequacy of the internal financial controls with reference to standalone financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B" to this report. Our report expresses modified opinion on the adequacy and operating effectiveness of the Company's internal financial controls with reference to financial statements;

- g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:

- 1) The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements (Refer Note No. 45.1 to the standalone financial statements);

- 2) The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long term contracts including derivative contracts);

- 3) There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company;

- 4) (a) The Management has represented that, to the best of its knowledge and belief, as disclosed in note Note 53(7) to the standalone financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

- (b) The Management has represented, that, to the best of its knowledge and belief, as disclosed in note Note 53(8) to the standalone financial statements, no funds have been received by the Company from any person or entity,

including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and

- (c) Based on such audit procedures that we have considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under 4(a) and 4(b) above, contain any material misstatement.

- 5) The final dividend paid by the Company during the year, in respect of the same declared in the previous year is in accordance with section 123 of the Act to the extent it applies to payment of dividend.

(b) No report under sub-section (12) of Section 143 of the Act has been filed in Form ADT - 4 as prescribed under Rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and up to the date of this report;

(c) As represented to us by the Management, there are no whistle blower complaints received by the Company during the year;

(xii) The Company is not a Nidhi Company. Accordingly, reporting under clause 3(xii) of the Order is not applicable;

(xiii) In our opinion, the Company is in compliance with Section 177 and 188 of the Act where applicable and the details of such related party transactions have been disclosed in the standalone financial statements as required by the applicable accounting standards;

(xiv) (a) In our opinion, The Company has an Internal audit system commensurate with the size and nature of its business;

(b) We have considered Internal Audit reports issued to the Company during the year and till date for the period under audit;

(xv) The Company has not entered into any non-cash transactions with its directors or persons connected with directors and hence provision of section 192 of the Act are not applicable;

(xvi) (a) The Company is not required to be registered under Section 45-1A of the Reserve Bank of India Act, 1934. Hence, reporting under clause 3 (xvi)(a) and (b) of the Order is not applicable;

(b) The Company is not a Core Investment Company (CIC) as defined in the regulations made by the Reserve Bank of India. Hence, reporting under clause 3(xvi)(c) of the Order is not applicable;

(c) There is no Core Investment Company within the Group (as defined in the Core Investment Companies (Reserve Bank) Directions, 2016) and accordingly reporting under clause 3 (xvi) (d) of the Order is not applicable;

(xvii) The Company has not incurred cash losses during the financial year covered by our audit and the immediately preceding financial year;

(xviii) There has been no resignation of the statutory auditors of the Company during the year. Hence, reporting under clause 3(xviii) of the Order is not applicable;

(xix) On the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information accompanying the financial statements and our knowledge of the Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date.

We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due;

(xx) As disclosed in Note No. 50 to the standalone financial statements, the gross amount required to be spent by the Company towards Corporate Social Responsibility (CSR) for the year has been duly spent. Accordingly, reporting under clause 3(xx)(a) and clause 3(xx)(b) of the Order is not applicable;

## ANNEXURE B TO INDEPENDENT AUDITOR'S REPORT

**[Referred to in paragraph 2(f) under 'Report on Other Legal and Regulatory Requirements' in the Independent Auditor's Report of even date to the members of Sarla Performance Fibers Limited ("the Company") on the standalone financial statements for the year ended 31<sup>st</sup> March, 2023]**

### Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Act

#### Modified Opinion

We have audited the internal financial controls with reference to standalone financial statements of **Sarla Performance Fibers Limited** ("the Company") as of 31<sup>st</sup> March, 2023 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

During FY 2020-21, Company had implemented new ERP system, which is still in the process of stabilization. Due to the same, the Company is in the process of implementation and testing of controls with respect to certain areas such as valuation of inventories, depreciation / amortization for property, plant and equipment / intangible assets and updation of customer / vendor master, material Management.

In our opinion, except for the possible effects of the weaknesses described above, the Company has, in all material respects, an adequate internal financial controls with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at 31<sup>st</sup> March, 2023, based on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

### Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal controls stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

### Auditor's Responsibility for the Audit of the Internal Financial Controls with Reference to Financial Statements

Our responsibility is to express an opinion on the Company's internal financial controls with reference to standalone financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing as specified under Section

143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to these standalone financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to standalone financial statements and their operating effectiveness. Our audit of internal financial controls with reference to standalone financial statements included obtaining an understanding of internal financial controls with reference to these standalone financial statements, assessing the risk that a material weakness exists and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to standalone financial statements.

### Meaning of Internal Financial Controls with reference to these standalone financial statements

A Company's internal financial controls with reference to standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control with reference to standalone financial statements includes those policies and procedures that:

1. pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;

2. provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of Management and directors of the Company; and
3. provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

### Inherent Limitations of Internal Financial Controls with reference to standalone financial statements

Because of the inherent limitations of internal financial controls with reference to standalone financial statements, including the possibility of collusion or improper Management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to standalone financial statements to future periods are subject to the risk that the internal financial control with reference to standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

## Notes to Standalone Financial Statements for the year ended 31st March, 2023

**1. CORPORATE INFORMATION:**

Sarla Performance Fibers Limited ('SPFL' or 'the Company') is a public limited Company incorporated and domiciled in India and has its registered office at Survey No. 59/1/4, Amil Piparia Industrial Estate, Silvassa – 396 230, U.T. of Dadra & Nagar Haveli, India. The Company is listed on the Bombay Stock Exchange (BSE) and the National Stock Exchange (NSE) in India.

The Company is engaged primarily in manufacturing of various types of polyester and nylon yarns. The Company caters to both domestic and international markets. The Company has four plants, 2 at Silvassa, 1 at Dadra, Union territory of Dadra and Nagar haveli and 1 at Vapi, Gujarat.

The Company has a global presence with key subsidiaries in United States of America (USA) and British Virgin Island (BVI) that are engaged in the manufacture and/or sale of various types of polyester and nylon yarns.

**2. BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES:****2.1. Basis of preparation and presentation:**

The standalone financial statements comply with Indian Accounting Standards ('Ind AS') notified under Section 133 of the Companies Act, 2013 ('Act') read with Companies (Indian Accounting Standards) Rules, 2015, as amended and other relevant provisions of the Act and Rules thereunder.

The standalone financial statements have been prepared under historical cost convention using the accrual method of accounting basis except for certain assets and liabilities measured at fair value. The accounting policies are applied consistently to all the periods presented in the standalone financial statements.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle, para 66 and 69 of Ind AS 1 and other criteria as set out in the Division II of Schedule III to the Act.

Based on the nature of products and the time between acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current or non-current classification of assets and liabilities. Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The standalone financial statements are presented in Indian Rupee (INR), the functional currency of the Company.

All amounts disclosed in the financial statements and notes have been rounded off to the nearest lakhs, unless otherwise stated.

The financial statements of the Company for the year ended 31<sup>st</sup> March, 2023 were approved for issue in accordance with a resolution of the Board of Directors in its meeting held on 13<sup>th</sup> May, 2023.

**2.2. Use of Judgements and Estimates:**

The preparation of the standalone financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenue, expenses, assets, liabilities and accompanying disclosures.

Uncertainty about these assumptions and estimates could result in outcomes that require material adjustments to the carrying amount of assets or liabilities in future periods. The Company continually evaluates these estimates and assumptions based on the most recently available information.

In particular, information about significant areas of estimates and judgements in applying accounting policies that have most significant effect on amounts recognised in the standalone financial statements are as below:

- Estimates of useful lives and residual value of property, plant and equipment and intangible assets;
- Measurement of defined benefit obligations;
- Measurement and likelihood of occurrence of provisions and contingencies;
- Measurement of Right of Use assets and Lease liabilities;
- Measurement of recoverable amounts of cash-generating units;
- Valuation of inventories;
- Provision for loss allowances;
- Fair value measurement of financial instruments;
- Recognition of deferred tax assets.

Revisions to accounting estimates are recognised prospectively.

## Notes to Standalone Financial Statements for the year ended 31st March, 2023

**2.3. Property, plant and equipment and Depreciation:**

- 2.3.1.** Property, plant and equipment are stated at cost net of accumulated depreciation and accumulated impairment losses, if any;
- 2.3.2.** The initial cost of an asset comprises its purchase price (including import duties and non-refundable taxes), any costs directly attributable to bringing the asset into the location and condition necessary for it to be capable of operating in the manner intended by management, the initial estimate of any decommissioning obligation, if any, and, borrowing cost for qualifying assets (i.e. assets that necessarily take a substantial period of time to get ready for their intended use);
- 2.3.3.** Directly attributable costs includes cost of testing (net off proceeds from selling any items produced). Excess of net sale proceeds of items produced over the cost of testing, if any, is deducted directly from attributable costs of an item of property, plant, and equipment.
- 2.3.4.** Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company;
- 2.3.5.** Spare parts which meet the definition of property, plant and equipment are capitalised as property, plant and equipment in case the unit value of the spare part is above the threshold limit. In other cases, the spare part is inventorised on procurement and charged to Statement of profit and loss on consumption;
- 2.3.6.** An item of property, plant and equipment and any significant part initially recognised separately as part of property, plant and equipment is derecognised upon disposal; or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset is included in the Statement of Profit and Loss when the asset is derecognised;
- 2.3.7.** The residual values and useful lives of property, plant and equipment are reviewed at each financial year end and changes, if any, are accounted in the line with revisions to accounting estimates;
- 2.3.8.** Property, plant and equipment which are not ready for intended use as on date of Balance Sheet are disclosed as "Capital work-in-progress";
- 2.3.9.** Depreciation is provided on pro-rata basis on the straight-line method (after retaining the estimated residual value up to 5%) based on estimated useful life prescribed under Schedule II to the Act, except for assets costing Rs.5,000/- or less are fully depreciated or fully written off in the year of purchase;
- 2.3.10.** Components of the main asset that are significant in value and have different useful lives as compared to the main asset are depreciated over their estimated useful life. Useful life of such components has been assessed based on historical experience and internal technical assessment;
- 2.3.11.** Depreciation on spare parts specific to an item of property, plant and equipment is based on life of the related property, plant and equipment. In other cases, the spare parts are depreciated over their estimated useful life based on the technical assessment;
- 2.3.12.** The Company had chosen the carrying value of Property, Plant and Equipment existing as per previous GAAP as on date of transition to Ind AS i.e. 1<sup>st</sup> April, 2015 as deemed cost.

**2.4. Intangible Assets and Amortisation:**

- 2.4.1.** Intangible assets are recognised only if it is probable that the future economic benefits that are attributable to the assets will flow to the enterprise and the cost of the assets can be measured reliably;
- 2.4.2.** Intangible assets are carried at cost net of accumulated amortization and accumulated impairment losses, if any;
- 2.4.3.** An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses on de-recognition are determined by comparing proceeds with carrying amount. These are included in profit or loss within other gains/(losses);
- 2.4.4.** The estimated useful life is reviewed at each financial year end and changes, if any, are accounted in the line with revisions to accounting estimates;
- 2.4.5.** Intangible assets which are not ready for intended use as on date of Balance Sheet are disclosed as "Intangible assets under development";
- 2.4.6.** The intangible assets with a finite useful life are amortised using straight line method over their estimated useful lives. The management's estimates of the useful lives for various class of Intangibles are as given below:

## Notes to Standalone Financial Statements for the year ended 31st March, 2023

Asset	Useful life
Enterprise Resource Planning (ERP) software	5 years

**2.5. Investment property:**

- 2.5.1.** Investment property is property (land or a building – or part of a building – or both) held either to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business, use in production or supply of goods or services or for administrative purposes. Investment properties are stated at cost net of accumulated depreciation and accumulated impairment losses, if any;
- 2.5.2.** Any gain or loss on disposal of investment property is calculated as the difference between the net proceeds from disposal and the carrying amount of the investment property is recognised in Statement of Profit and Loss.

**2.6. Non-currents assets held for sale:**

- 2.6.1.** Non-current assets are classified as held for sale if their carrying amounts will be recovered through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable and the asset is available for immediate sale in its present condition subject only to terms that are usual and customary for sale of such assets;
- 2.6.2.** Non-current assets classified as held for sale are measured at the lower of carrying amount and fair value less costs to sell;
- 2.6.3.** Non – current assets classified as held for sale are not depreciated or amortized from the date when they are classified as held for sale.

**2.7. Leases:**

The Company assesses whether a contract is or contains a lease, at the inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether

- the contract involves the use of an identified asset;
- the Company has substantially all of the economic benefits from use of the asset through the period of the lease and
- the Company has the right to direct the use of the asset.

**2.7.1. As a lessee**

The right-of-use asset is a lessee's right to use an asset over the life of a lease. At the date of commencement of the lease, the Company recognises a right-of-use asset and a corresponding lease liability for all lease arrangements in which it is a lessee, except for short-term leases and leases of low value assets. For these, the Company recognises the lease payments as an operating expense.

The right-of-use assets are initially recognised at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses, if any. Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset.

The lease liability is initially measured at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability and reducing the carrying amount to reflect the lease payments made.

A lease liability is remeasured upon the occurrence of certain events such as a change in the lease term or a change in an index or rate used to determine lease payments. The remeasurement normally also adjusts the leased assets.

## Notes to Standalone Financial Statements for the year ended 31st March, 2023

**2.7.2. As a lessor**

A lessor shall classify each of its leases as either an operating lease or a finance lease.

Finance leases

A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of an underlying asset. Company shall recognise assets held under a finance lease in its balance sheet and present them as a receivable at an amount equal to the net investment in the lease.

Operating leases

A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership of an underlying asset. Company shall recognise lease payments from operating leases as income on straight line basis over the term of relevant lessee.

**2.8. Investment in Subsidiaries:**

Investments in Subsidiaries are carried at cost less accumulated impairment losses, if any. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount. On disposal of investments in subsidiaries, the difference between net disposal proceeds and the carrying amounts are recognised in the standalone statement of profit and loss.

**2.9. Impairment of Non-financial Assets:**

**2.9.1.** Non-financial assets other than inventories, deferred tax assets and non-current assets classified as held for sale are reviewed at each Balance Sheet date to determine whether there is any indication of impairment. If any such indication exists or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. The recoverable amount is the higher of the asset's or Cash Generating Unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets;

**2.9.2.** When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

**2.10. Inventories:**

**2.10.1.** Inventories are valued at lower of cost and net realisable value. The cost of raw material is arrived on First-in-first-out basis;

**2.10.2.** Cost of raw materials and stores and spares includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. The aforesaid items are valued at net realisable value if the finished products in which they are to be incorporated are expected to be sold at a loss;

**2.10.3.** Cost of finished goods and work-in-progress include all costs of purchases, conversion costs and other costs incurred in bringing the inventories to their present location and condition. The net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and estimated costs necessary to make the sale.

**2.11. Provisions and Contingent Liabilities:**

**2.11.1.** Provisions are recognized when there is a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation;

**2.11.2.** The expenses relating to a provision is presented in the Statement of Profit and Loss net of reimbursements, if any;

**2.11.3.** If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost;

**2.11.4.** Contingent liabilities are possible obligations whose existence will only be confirmed by future events not wholly within the control of the Company, or present obligations where it is not probable that an outflow of resources will be required or the amount of the obligation cannot be measured with sufficient reliability;

**2.11.5.** Contingent liabilities are not recognized in the financial statements but are disclosed unless the possibility of an outflow of economic resources is considered remote.

## Notes to Standalone Financial Statements for the year ended 31st March, 2023

**2.12. Revenue Recognition:****2.12.1. Sale of goods:**

Revenue is recognised upon transfer of control of promised goods to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those goods.

Revenue from the sale of goods is recognised at the point in time when control is transferred to the customer which is usually on dispatch / delivery of goods, based on contracts with the customers. Export sales are recognized on the issuance of Bill of Lading / Airway bill by the carrier. Revenue from sale of power from wind operated generators is accounted when the same is transmitted to and confirmed by the Electricity Board to whom the same is sold.

Revenue is measured based on the transaction price, which is the consideration, adjusted for discounts, price concessions, incentives, and returns, if any, as specified in the contracts with the customers. Accruals for discounts/incentives and returns are estimated (using the most likely method) based on accumulated experience and underlying schemes and agreements with customers. Due to the short nature of credit period given to customers, there is no financing component in the contract.

Revenue excludes taxes collected from customers on behalf of the government.

Contract Balances:Trade Receivables

A receivable represents the Company's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due).

Contract liabilities

A contract liability is the obligation to transfer goods to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made, or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company performs under the contract.

**2.12.2. Rendering of Services**

Revenue is recognized from rendering of services when the performance obligation is satisfied and the services are rendered in accordance with the terms of customer contracts. Revenue is measured based on the transaction price, which is the consideration, as specified in the contract with the customer;

Revenue from services is recognised over time by measuring progress towards satisfaction of performance obligation for the services rendered;

Revenue excludes taxes collected from customers on behalf of the government.

**2.12.3.** Export incentives under various schemes notified by the Government have been recognised on the basis of applicable regulations, and when reasonable assurance to receive such revenue is established;

**2.12.4.** Interest income is recognized using the effective interest rate (EIR) method;

**2.12.5.** Dividend income on investments is recognised when the right to receive dividend is established;

**2.12.6.** Insurance claims are accounted for on the basis of claims admitted / expected to be admitted and to the extent that the amount recoverable can be measured reliably and it is reasonable to expect ultimate collection.

**2.13. Segment reporting:**

The Company identifies operating segments based on the dominant source, nature of risks and returns and the internal organisation. The operating segments are the segments for which separate financial information is available and for which operating profit/loss amounts are evaluated regularly by the Managing Director (who is the Company's chief operating decision maker) in deciding how to allocate resources and in assessing performance.

The accounting policies adopted for segment reporting are in conformity with the accounting policies of the Company. Segment revenue, segment expenses, segment assets and segment liabilities have been identified to segments on the basis of their relationship to the operating activities of the segment. Inter segment revenue is accounted on the basis of transactions which are primarily determined based on market / fair value factors. Revenue, expenses, assets and liabilities which relate to the Company are not allocable to segments on a reasonable basis have been included under 'unallocated revenue / expenses / assets / liabilities'.

## Notes to Standalone Financial Statements for the year ended 31st March, 2023

**2.14. Employee Benefits:****2.14.1. Short-term employee benefits:**

Short-term employee benefits (including leave) are recognized as an expense at an undiscounted amount in the Statement of Profit and Loss of the year in which the related services are rendered;

**2.14.2. Post-employment benefits:**

The Company operates the following post – employment schemes:

- Defined contribution plans such as provident fund; and
- Defined benefit plans such as gratuity

**Defined Contribution Plans:**

Obligations for contributions to defined contribution plans such as provident fund are recognised as an expense in the Statement of Profit and Loss as the related service is rendered by the employee. The said benefits are classified as Defined Contribution Schemes as the Company has no further defined obligations beyond the monthly contributions.

**Defined Benefit Plans:**

The Company's net obligation in respect of defined benefit plans such as gratuity is calculated by estimating the amount of future benefit that the employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligation is performed at each reporting period end by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Company, the recognised asset is limited to the present value of the economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan.

The current service cost of the defined benefit plan, recognized in the Statement of Profit and Loss as part of employee benefit expense, reflects the increase in the defined benefit obligation resulting from employee service in the current year, benefit changes, curtailments and settlements. Past service costs are recognized immediately in the Statement of Profit and Loss. The net interest is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This net interest is included in employee benefit expense in the Statement of Profit and Loss.

Re-measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income.

**2.15. Borrowing costs:**

**2.15.1.** Borrowing costs consist of interest and other costs incurred in connection with the borrowing of funds. Borrowing costs also include exchange differences to the extent regarded as an adjustment to the borrowing costs;

**2.15.2.** Borrowing costs that are attributable to the acquisition or construction of qualifying assets (i.e. an asset that necessarily takes a substantial period of time to get ready for its intended use) are capitalized as a part of the cost of such assets. All other borrowing costs are charged to the Statement of Profit and Loss;

**2.15.3.** Investment Income earned on the temporary investment of funds of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

**2.16. Foreign Currency Transactions:****2.16.1. Monetary items:**

Transactions in foreign currencies are initially recorded at their respective exchange rates at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at exchange rates prevailing on the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognised in Statement of Profit and Loss either as profit or loss on foreign currency transaction and translation or as borrowing costs to the extent regarded as an adjustment to borrowing costs.

## Notes to Standalone Financial Statements for the year ended 31st March, 2023

**2.16.2. Non – Monetary items:**

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

**2.17. Government Grants:**

**2.17.1.** Government grants are recognized where there is reasonable assurance that the grant will be received and all attached conditions will be complied with;

**2.17.2.** When the grant relates to an expense item, it is recognized in Statement of Profit and Loss on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed;

**2.17.3.** Government grants relating to property, plant and equipment are presented as deferred income and are credited to the Statement of Profit and Loss on a systematic and rationale basis over the useful life of the asset;

**2.18. Fair Value measurement:**

**2.18.1.** The Company measures certain financial instruments at fair value at each reporting date;

**2.18.2.** Certain accounting policies and disclosures require the measurement of fair values, for both financial and non- financial assets and liabilities;

**2.18.3.** Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Company has access at that date. The fair value of a liability also reflects its non-performance risk;

**2.18.4.** The best estimate of the fair value of a financial instrument on initial recognition is normally the transaction price – i.e. the fair value of the consideration given or received. If the Company determines that the fair value on initial recognition differs from the transaction price and the fair value is evidenced neither by a quoted price in an active market for an identical asset or liability nor based on a valuation technique that uses only data from observable markets, then the financial instrument is initially measured at fair value, adjusted to defer the difference between the fair value on initial recognition and the transaction price. Subsequently that difference is recognised in Statement of Profit and Loss on an appropriate basis over the life of the instrument but no later than when the valuation is wholly supported by observable market data or the transaction is closed out;

**2.18.5.** While measuring the fair value of an asset or liability, the Company uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation technique as follows:

**Level 1:** quoted prices (unadjusted) in active markets for identical assets or liabilities

**Level 2:** inputs other than quoted prices included in Level 1 that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)

**Level 3:** inputs for the assets or liability that are not based on observable market data (unobservable inputs);

**2.18.6.** When quoted price in active market for an instrument is available, the Company measures the fair value of the instrument using that price. A market is regarded as active if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis;

**2.18.7.** If there is no quoted price in an active market, then the Company uses valuation techniques that maximise the use of relevant observable inputs and minimise the use of unobservable inputs. The chosen valuation technique incorporates all of the factors that market participants would take into account in pricing a transaction;

**2.18.8.** The Company regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the Company assesses the evidence obtained from third parties to support the conclusion that these valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which the valuations should be classified.

## Notes to Standalone Financial Statements for the year ended 31st March, 2023

**2.19. Financial Instruments:**

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

**2.19.1. Financial Assets:****I. Initial recognition and measurement:**

The Company recognizes financial assets when it becomes a party to the contractual provisions of the instrument.

All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables that do not contain a significant financing component or for which the Company has applied the practical expedient are initially measured at the transaction price determined under Ind AS 115.

Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, which are not at fair value through profit or loss, are added to the fair value on initial recognition. Financial assets are classified at the initial recognition as financial assets measured at fair value or as financial assets measured at amortised cost.

**II. Subsequent measurement:**

Financial assets are subsequently classified as measured at

- a) amortised cost;
- b) fair value through profit and loss (FVTPL);
- c) fair value through other comprehensive income (FVOCI).

Financial assets are not reclassified subsequent to their recognition, except if and in the period the Company changes its business model for managing financial assets.

**a) Measured at amortised cost:**

Financial assets that are held within a business model whose objective is to hold financial assets in order to collect contractual cash flows that are solely payments of principal and interest, are subsequently measured at amortised cost using the effective interest rate ('EIR') method less impairment, if any. The amortisation of EIR and loss arising from impairment, if any is recognised in the Statement of Profit and Loss.

**b) Measured at FVOCI:**

Financial assets that are held within a business model whose objective is achieved by both, selling financial assets and collecting contractual cash flows that are solely payments of principal and interest, are subsequently measured at FVOCI. Fair value movements are recognized in the other comprehensive income (OCI). Interest income measured using the EIR method and impairment losses, if any are recognised in the Statement of Profit and Loss. On de-recognition, cumulative gain or loss previously recognised in OCI is reclassified from the equity to 'other income' in the Statement of Profit and Loss.

For equity instruments, the Company may make an irrevocable election (on initial recognition) to present in other comprehensive income subsequent changes in the fair value. The Company makes such election on an instrument-by-instrument basis.

If the Company decides to classify an equity instrument as at FVOCI, then all fair value changes on the instrument, excluding dividends, are recognised in the Other Comprehensive Income (OCI). There is no recycling of the amounts from OCI to Statement of Profit and loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognised in the Statement of Profit & Loss.

**c) Measured at FVTPL:**

A financial asset not classified as either amortised cost or FVOCI, is classified as FVTPL. Such financial assets are measured at fair value with all changes in fair value, including interest income and dividend income if any, recognised as 'other income' in the Statement of Profit and Loss.

## Notes to Standalone Financial Statements for the year ended 31st March, 2023

**III. De-recognition:**

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the contractual rights to receive the cash flows from the asset and the transfer qualifies for derecognition under Ind AS 109.

**IV. Impairment of Financial assets:**

In accordance with Ind AS 109, the Company applies Expected Credit Loss (ECL) model for measurement and recognition of impairment loss on the financial assets measured at amortised costs and debt instruments measured at FVOCI.

Loss allowance on receivables from customers are measured following the 'simplified approach' at an amount equal to lifetime ECL at each reporting date. In respect of other financial assets, the loss allowance is measured at 12 months ECL only if there is no significant deterioration in the credit risk since initial recognition of the asset or asset is determined to have a low credit risk at the reporting date.

**2.19.2. Financial Liabilities:****I. Initial recognition and measurement:**

Financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

**II. Subsequent measurement:**

Financial liabilities are subsequently measured at amortised cost using the EIR method. Financial liabilities carried at FVTPL are measured at fair value with all changes in fair value recognised in the Statement of Profit and Loss.

**III. De-recognition:**

A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or expires.

**2.19.3. Financial guarantees:**

Financial guarantee contracts issued by the Company are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of the debt instrument.

Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee.

Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind AS 109 and the fair value initially recognised less cumulative amortisation.

**2.19.4. Derivative financial instruments:**

The Company uses derivative financial instruments to manage the exposure on account of fluctuation in interest rate and foreign exchange rates. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently measured at fair value with the changes being recognised in the Statement of Profit and Loss. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

**2.19.5. Embedded derivatives:**

If the hybrid contract contains a host that is a financial asset within the scope of Ind AS 109, the classification requirements contained in Ind AS 109 are applied to the entire hybrid contract.

Derivatives embedded in all other host contracts, including financial liabilities are accounted for as separate derivatives and recorded at fair value, if their economic characteristics and risks are not closely related to those of the host contracts and the host contracts are not held for trading or designated at FVTPL.

## Notes to Standalone Financial Statements for the year ended 31st March, 2023

These embedded derivatives are measured at fair value with changes in fair value recognised in Statement of Profit and Loss, unless designated as effective hedging instruments.

Reassessment only occurs if there is a change in the terms of the contract that significantly modifies the cash flows.

**2.19.6. Offsetting of financial instruments:**

Financial assets and financial liabilities are offset and the net amount is reported in the Balance Sheet, if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

**2.20. Taxes on Income****2.20.1. Current Tax**

Income-tax Assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, by the end of reporting period.

Current Tax items are recognised in correlation to the underlying transaction either in the Statement of Profit and Loss, other comprehensive income or directly in equity;

**2.20.2. Deferred tax**

Deferred tax is provided using the Balance Sheet method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences. Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the reporting date.

Deferred Tax items are recognised in correlation to the underlying transaction either in the Statement of Profit and Loss, other comprehensive income or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

**2.21. Earnings per share**

**2.21.1.** Basic earnings per share is calculated by dividing the profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period;

**2.21.2.** For the purpose of calculating diluted earnings per share, the profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effect of all dilutive potential equity shares.

**2.22. Cash and Cash equivalents:**

**2.22.1.** Cash and cash equivalents in the Balance Sheet include cash at bank, cash, cheque, draft on hand and demand deposits with an original maturity of less than three months, which are subject to an insignificant risk of changes in value;

**2.22.2.** For the purpose of Statement of Cash Flows, Cash and cash equivalents include cash at bank, cash, cheque and draft on hand net off of outstanding bank overdrafts as they are considered an integral part of the Company's cash management. The Company considers all highly liquid investments with a remaining maturity at the date of purchase of three months or less and that are readily convertible to known amounts of cash to be cash equivalents.

## Notes to Standalone Financial Statements for the year ended 31st March, 2023

**2.23. Cash Flows:**

Cash flows are reported using the indirect method, where by net profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities are segregated.

**2.24. Dividend:**

Final dividend on shares are recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the Company's Board of Directors.

**3. Recent Pronouncements:**

On 31<sup>st</sup> March, 2023, the Ministry of Corporate Affairs (MCA) has notified Companies (Indian Accounting Standards) Amendment Rules, 2023. This notification has resulted into following amendments in the existing Accounting Standards which are applicable from 1<sup>st</sup> April, 2023.

- **Ind AS 101 – First time adoption of Ind AS** – modification relating to recognition of deferred tax asset by a first-time adopter associated with (a) right to use assets and related liabilities and (b) decommissioning, restoration and similar liabilities and corresponding amounts recognised as cost of the related assets;
- **Ind AS 102 – Share-based Payment** – modification relating to adjustment after vesting date to the fair value of equity instruments granted;
- **Ind AS 103 – Business Combination** – modification relating to disclosures to be made in the first financial statements following a business combination;
- **Ind AS 107 – Financial Instruments Disclosures** – modification relating to disclosure of material accounting policies including information about basis of measurement of financial instruments;
- **Ind AS 109 – Financial Instruments** – modification relating to reassessment of embedded derivatives;
- **Ind AS 1 – Presentation of Financials Statements** – modification relating to disclosure of 'material accounting policy information' in place of 'significant accounting policies';
- **Ind AS 8 – Accounting Policies, Change in Accounting Estimates and Errors** – modification of definition of 'accounting estimate' and application of changes in accounting estimates;
- **Ind AS 12 – Income Taxes** – modification relating to recognition of deferred tax liabilities and deferred tax assets;
- **Ind AS 34 – Interim Financial Reporting** – modification in interim financial reporting relating to disclosure of 'material accounting policy information' in place of 'significant accounting policies'.

The Company is evaluating the amendments and the expected impact, if any, on the Company's financial statements on application of the amendments for annual reporting periods beginning on or after 1<sup>st</sup> April, 2023.

**Major category of plan assets as a % of total plan**

The plan assets are being managed by LIC. No further details are made available by the fund manager. (LIC)

**Sensitivity analysis**

Significant actuarial assumptions for the determination of defined obligation are discount rate and expected salary increase. The sensitivity analysis below have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

Particulars	As at March 31, 2023	As at March 31, 2022
Impact on present value of defined benefit obligation:		
If discount rate is increased by 0.5%	(3.44)	(4.86)
If discount rate is decreased by 0.5%	3.78	5.03
If salary escalation rate is increased by 0.5%	3.78	4.46
If salary escalation rate is decreased by 0.5%	(3.86)	(4.06)

## Notes to Standalone Financial Statements for the year ended 31st March, 2023

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumption would occur in isolation of one another as some of the assumptions may be correlated. Furthermore, in presenting the above sensitivity analysis, the present value of the defined benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognised in the balance sheet.

There was no change in the methods and assumptions used in preparing the sensitivity analysis from prior years.

**Principal Actuarial Assumptions** (Rs in lakhs)

Particulars	As at March 31, 2023	As at March 31, 2022
Discount Rate	7.31%	6.25%
Expected return on plan assets	7.83	2.70
Expected rate of salary increase	7.00%	7.00%
Employee attrition rate	20.00%	20.00%
Mortality	Indian Assured Lives (2012-14)	Indian Assured Lives (2012-14)

Estimates of future salary increases considered in actuarial valuation take account of inflation, seniority, promotion and other relevant factors such as supply and demand in the employment market

These plans typically expose the Company to actuarial risks such as interest rate risk and salary risk.

- Interest risk: a decrease in the bond interest rate will increase the plan liability.
- Salary risk: the present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, a variation in the expected rate of salary increase of the plan participants will change the plan liability.

**C Other short term employee benefits****Short term leave**

The expenses towards compensated absences (annual and short term leave) for the year ended March 31, 2023 of Rs. (9.45) lakhs (March 31, 2022: Rs. 40.51 lakhs), which is included in the 'Employee benefits expense' in the Statement of Profit and Loss.

**ii) Fair Value Measurements (Ind AS 113):**

The fair values of the Financial Assets and Liabilities are included at the amount, at which instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments based on the input that is significant to the fair value measurement as a whole:

Level 1: This hierarchy uses quoted (unadjusted) prices in active markets for identical assets or liabilities. The fair value of all Equity Shares which are traded on the stock exchanges, is valued using the closing price at the reporting date.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, over the counter derivatives) is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on company specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in Level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in Level 3.

(Rs in lakhs)

Particulars	Fair Values	
	As at March 31, 2023	As at March 31, 2022
<b>Financial Assets at Fair Value through Profit and Loss</b>		
Investments in equity shares (Level 1)	994.36	428.94

Investments in Mutual Funds (Level 2)	7,315.77	1,479.82
<b>Total</b>	<b>8721.56</b>	<b>2663.69</b>

The management assessed that cash and bank balances, trade receivables, loans, trade payables, borrowings (cash credit, foreign currency loans, working capital loans) and other financial assets and liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

During the reporting period ending March 31, 2023 and March 31, 2022, there was no transfer between level 1 and level 2 fair value

**Key Inputs for Level 1 and 2 Fair valuation Technique:**

1. Mutual Funds: Based on Net Asset Value of the Scheme (Level 2)
2. Derivative (forward) contracts: The fair value is determined using quoted forward exchange rates at the reporting date. (Level 2)
3. Debentures: Based on comparable instruments (Level 2)
4. Listed Equity Investments: Quoted Bid Price on Stock Exchange (Level 1)

**47 Financial risk management objectives (Ind AS 107)**

The Company's Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities.

The key risks and mitigating actions are also placed before the Audit Committee of the Company.

The Company has exposure to the following risks arising from financial instruments:

- A) Credit risk;
- B) Liquidity risk; and
- C) Market risk

## Notes to Standalone Financial Statements for the year ended 31st March, 2023

**A. Credit risk**

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations. Credit risk arises primarily from financial assets such as trade receivables, investments in mutual funds, preference shares, debentures, derivative financial instruments, other balances with banks, loans and other receivables.

**Trade and other receivables**

Customer credit is managed by each business unit subject to the Company's established policies, procedures and control relating to customer credit risk management. Trade receivables are non-interest bearing and are generally on 0 to 180 days credit term. Credit limits are established for all customers based on internal rating criteria. Outstanding customer receivables are regularly monitored.

An impairment analysis is performed at each reporting date on an individual basis for major clients. In addition, a large number of minor receivables are grouped into homogenous groups and assessed for impairment collectively. The Company does not hold collateral as security. The Group has no concentration of credit risk as the customer base is widely distributed both economically and geographically.

The Company measures the expected credit loss of trade receivables based on historical trend, industry practices and the business environment in which the entity operates. Loss rates are based on actual credit loss experience and past trends.

The following table provides information about the exposure to credit risk and Expected Credit Loss Allowance for trade and other receivables:

(Rs in lakhs)

Particulars	As at March 31, 2023	As at March 31, 2022
up to 180 days	5,495.24	9,402.06

Above 365 days	476.61	284.92
<b>Total</b>	<b>6,188.93</b>	<b>10,371.02</b>

**Movement in allowances as per expected credit loss model** (Rs in lakhs)

Particulars	As at March 31, 2023	As at March 31, 2022
Balance at beginning of the year	284.92	235.22
Movement in expected credit loss allowance	(267.46)	49.70
<b>Balance at end of the year</b>	<b>17.46</b>	<b>284.92</b>

**Loans**

The Company has given interest free unsecured loan to subsidiary, Sarlaflex Inc. The subsidiary has suspended its manufacturing operations since December, 2017 and has a negative net worth as on March 31, 2023. Credit risk have been increased significantly for these loans and accordingly necessary impairment provisions have been made.

**Other financial assets**

The Company maintains exposure in cash and cash equivalents, term deposits with banks, investments in Debentures, Preference shares, mutual funds and derivative contracts. The Company has diversified portfolio of investment with various number of counter-parties which have secure credit ratings hence the risk is reduced. Individual risk limits are set for each counter-party based on financial position, credit rating and past experience. Credit limits and concentration of exposures are actively monitored by the Management of the Company.

**B. Liquidity risk**

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset.

Liquidity risk is managed by Company through effective fund management. The Company's principal sources of liquidity are cash and cash equivalents, borrowings and the cash flow that is generated from operations. The

## Notes to Standalone Financial Statements for the year ended 31st March, 2023

Company believes that current cash and cash equivalents, tied up borrowing lines and cash flow that is generated from operations is sufficient to meet requirements. Accordingly, liquidity risk is perceived to be low.

The following are the remaining contractual maturities of financial liabilities at the reporting date. Amounts disclosed are the contractual un-discounted cash flows.

**C. Market risk**

Market Risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: currency risk, interest rate risk and price risk.

**I Currency Risk**

The Company is exposed to currency risk on account of its operating and financing activities. The functional currency of the Company is Indian Rupee. Company's exposure is mainly denominated in U.S. dollars (USD). The USD exchange rate has changed substantially in recent periods and may continue to fluctuate substantially in the future. The Company has put in place a Financial Risk Management Policy to Identify the most effective and efficient ways of managing the currency risks. The Company uses derivative instruments (mainly foreign exchange forward contracts) to mitigate the risk of changes in foreign currency exchange rate.

The Company does not use derivative financial instruments for trading or speculative purposes.

**Exposure to currency risk**

## Notes to Standalone Financial Statements for the year ended 31st March, 2023

**Sensitivity analysis**

The following table details the Company's sensitivity to a 5% increase and decrease in the Rupee against the relevant foreign currencies. 5% is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the reasonably possible change in foreign exchange rates. This is mainly attributable to the net exposure outstanding on receivables or payables in the Company at the end of the reporting period. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the period end for a 5% change in foreign currency rate. This analysis assumes that all other variables, in particular interest rates, remain constant and ignores any impact of forecast sales and purchases. In cases where the related foreign exchange fluctuation is capitalised to fixed assets or recognised directly in reserves, the impact indicated below may affect the Company's income statement over the remaining life of the related fixed assets or the remaining tenure of the borrowing respectively.

**Impact on profit or loss (Rs in lakhs)**

Movement in currency (Before tax) Particulars	Increase in Exchange rate by 5%		Decrease in Exchange rate by 5%	
	For the year ended March 31, 2023	For the year ended March 31, 2022	For the year ended March 31, 2023	For the year ended March 31, 2022

EURO	(148.21)	(407.16)	148.21	407.16

**II Interest rate risk**

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in prevailing market interest rates. The Company's exposure to the risk due to changes in interest rates relates primarily to the Company's short-term and long term borrowings with floating interest rates. The Company constantly monitors the credit markets and revisits its financing strategies to achieve an optimal maturity profile and financing cost.

The Company has given interest free loan to Subsidiaries for business purpose.

The Company's investments in term deposits (i.e., certificates of deposits) with banks, investments in preference shares, mutual funds and debentures are at fixed interest rate and therefore do not expose the Company to significant interest rates risk.

**Interest Rate Exposure: (Rs in lakhs)**

Short term borrowings	(22.25)	(23.70)	22.25	23.70

Interest rate sensitivity has been calculated assuming the borrowings outstanding at the reporting date have been outstanding for the entire reporting period.

**III Price Risk**

The Company has deployed its surplus fund into various financial instruments including units of mutual fund, bond, debentures etc. The Company is exposed to price risk on such investments, which arises on account of interest rate, liquidity and credit quality of underlying securities.

## INDEPENDENT AUDITOR'S REPORT

### TO THE MEMBERS OF

### SARLA PERFORMANCE FIBERS LIMITED

### Report on the Audit of the Consolidated Financial Statements

#### Opinion

We have audited the accompanying consolidated financial statements of **Sarla Performance Fibers Limited** ("the Holding Company") and its subsidiaries (the Holding Company and Subsidiaries together referred to as "the Group"), which comprise the consolidated Balance Sheet as at 31<sup>st</sup> March 2023, the consolidated Statement of Profit and Loss (including Other Comprehensive Income), the consolidated Statement of Changes in Equity and the consolidated Statement of Cash Flows for the year then ended and notes to the consolidated financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, and based on the consideration of reports on separate financial statements and on the other financial information of the subsidiaries, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards ('Ind AS') specified under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015 and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at 31<sup>st</sup> March, 2023, its consolidated profit including other comprehensive income, consolidated changes in equity and its consolidated cash flows for the year ended on that date.

#### Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing (SAs), specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on consolidated financial statements.

#### Emphasis of Matters

- a) As reported in the respective component auditor's reports of Sarlaflex Inc., and Sarla Overseas Holdings Limited ('SOHL'), the financial statements of the respective companies are prepared on 'Going Concern' basis due to suspension of manufacturing operations since December 2017 and net worth becoming negative respectively;
- b) As reported in the component auditor's report of SOHL, the investments made by SOHL in three Joint Ventures are not consolidated on account of non-resolution of disputes, or non-receipt of financial statements for the year ended 31<sup>st</sup> March, 2023. Though these investments have been tested for impairment and necessary provisions have been made in FY 2017-18 on transition to Ind AS, we are unable to comment about impact of the same on the consolidated financial statements;

Our opinion is not modified in respect of these matters.

#### Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Sr no	Key Audit Matter	Auditor's Response
1.	<p><b>Litigations, Provisions and contingent liabilities</b></p> <p>The Holding Company has litigations which also include matters under dispute involving significant management judgement and estimates on the possible outcome of the litigations and consequent provisioning thereof or disclosure as contingent liabilities.</p> <p>Refer Note 45.1 to the consolidated financial statements.</p>	<p><b>Principal Audit Procedures</b></p> <p>As part of audit process, we obtained from the Holding Company's management details of matters under dispute including ongoing and completed tax assessments, demands and litigations.</p> <p>Our audit approach for the above consists of the following audit procedures:</p> <ul style="list-style-type: none"> <li>• Evaluation and testing of the design of internal controls followed by the Holding Company relating to litigations and open tax positions for indirect taxes and process followed to decide provisioning or disclosure as Contingent Liabilities;</li> </ul>
		<ul style="list-style-type: none"> <li>• Discussed with Holding Company's management for sufficient understanding of on-going and potential legal matters impacting the Company;</li> <li>• We involved our internal experts to evaluate the Holding Company's management's underlying judgements in making their estimates with regards to such matters.</li> </ul>
2.	<p><b>Information Technology (IT) systems and controls over financial reporting</b></p> <p>We identified IT systems and controls over financial reporting as a key audit matter for the Holding Company because its financial accounting and reporting systems are fundamentally reliant on IT systems and IT controls to process significant transaction volumes, specifically with respect to revenue and inventories. Also, due to large transaction volumes and the increasing challenge to protect the integrity of the Holding Company's systems and data, cyber security has become more significant;</p> <p>Automated accounting procedures and IT environment controls, which include IT governance, IT general controls over program development and changes, access to program and data and IT operations, IT application controls and interfaces between IT applications are required to be designed and to operate effectively to ensure accurate financial reporting.</p>	<p><b>Audit procedures followed by us include:</b></p> <ul style="list-style-type: none"> <li>• Assessed the complexity of the IT environment through discussion with the IT team and identified IT applications that are relevant to our audit;</li> <li>• Evaluated the operating effectiveness of IT general controls over program development and changes, access to program and data and IT operations;</li> <li>• Performed inquiry procedures with the IT team of the Holding Company in respect of the overall security architecture and any key threats addressed by the Holding Company in the current year;</li> <li>• Evaluated the operating effectiveness of IT application controls in the key processes impacting financial reporting of the Holding Company.</li> </ul>

#### Information Other than the Consolidated Financial Statements and Auditor's Report thereon

The Holding Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis including Annexures to Directors' Report, and Corporate Governance, but does not include the consolidated financial statements and our auditor's report.

Our opinion on the consolidated financial statements does not cover the Other Information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and in doing so, consider whether such other information is materially inconsistent with the consolidated financial statements, or our knowledge obtained during the course of our audit, or otherwise appears to be materially misstated.

When we read the other information, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

### Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation and presentation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated changes in equity and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India including the Ind AS specified under section 133 of the Act. The respective Board of Directors of the Companies included in the Group are responsible for maintenance of the adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective management and Board of Directors of the Companies included in the Group are responsible for assessing the ability of the respective entities to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless respective Management and Board of Directors either intends to liquidate their respective entities or to cease operations, or have no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group are also responsible for overseeing the financial reporting process of the Group.

### Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a

high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Holding Company have adequate internal financial controls with reference to consolidated financial statements in place and the operating effectiveness of such controls;
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;
- Conclude on the appropriateness of Management and Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern;

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation;
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group of which we are independent auditors and whose financial information we have audited to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion;
- Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

We communicate with those charged with governance of the Holding Company and such other entities included in consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal controls that we identify during our audit.

We also provide those charged with governance of the Holding Company with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards;

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### Other Matter

We did not audit the financial statements of two subsidiaries included in the consolidated financial statements, whose financial statements reflect total assets (before consolidation adjustments) of Rs.4,052.54 lakhs, total liabilities (before consolidation adjustments) of Rs.8,918.71 lakhs as at 31<sup>st</sup> March, 2023; total revenue (before consolidation adjustments) of Rs.320.50 lakhs and total comprehensive loss (before consolidation adjustments) of Rs.432.18 lakhs for the year ended 31<sup>st</sup> March, 2023 as considered in the consolidated financial statements. These financial statements have been audited by other auditors whose reports have been furnished to us by the Management, and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and our report in terms of sub-section (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries, is based solely on the reports of the other auditors, and such other procedures performed by us as stated in the preceding paragraph above.

These subsidiaries are located outside India whose financial statements and other financial information have been prepared in accordance with accounting principles generally accepted in their respective countries and which have been audited by other auditors under generally accepted auditing standards applicable in their respective countries. The Holding Company's Management has converted the financial statements of such subsidiaries located outside India from accounting principles generally accepted in their respective countries to accounting principles generally accepted in India. We have audited these conversion adjustments made by the Holding Company's Management. Our opinion, in so far as it relates to the balances and affairs of such subsidiaries is based on the report of other auditors and conversion adjustments prepared by the Management of the Holding Company and audited by us;

Our opinion on the consolidated financial statements, and our report on Legal and Regulatory requirements below, is not modified in respect of the above matter with respect to our reliance on the work done and the reports of the other auditors.

#### Report on Other Legal and Regulatory Requirements

1. Reporting under Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of Section 143 (11) of the Act is not applicable to subsidiaries incorporated outside India, hence, our report on consolidated financial statements does not contain a statement on the matters specified in paragraph 3(xxii) of the Order.
2. As required by Section 143(3) of the Act, based on our audit and on the consideration of reports of the other auditors on separate financial statements of subsidiaries, as were audited by other auditors, as noted in the 'other matter' paragraph, we report, to the extent applicable, that:
  - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the aforesaid consolidated financial statements;
  - b) In our opinion, proper books of accounts as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and reports of the other auditors;
  - c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows dealt with by this report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements;
  - d) In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements comply with the Ind AS;

- e) On the basis of the written representations received from the directors of the Holding Company as on 31<sup>st</sup> March, 2023 taken on record by the Board of Directors of the Holding Company, none of the director of the Holding Company is disqualified as on 31<sup>st</sup> March, 2023 from being appointed as a director in terms of Section 164(2) of the Act;
- f) As per the Guidance Note on 'Audit of Internal Financial Controls over Financial Reporting' (revised) issued by Institute of Chartered Accountants of India, since there are no subsidiaries incorporated in India, no reporting on the adequacy of the internal financial controls with reference to financial statements of subsidiaries and the operating effectiveness of such controls is required. With respect to the adequacy of the internal financial controls with reference to financial statements of the Holding Company and operating effectiveness of such controls, refer to our report in 'Annexure B' of the standalone financial statements;
- g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the report of the other auditors on separate financial statements as also the other financial information of the subsidiaries, as noted in the 'Other matter' paragraph:
  1. The consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group (Refer note 45.1 to the consolidated financial statements);
  2. The Group has made provision in the consolidated financial statements, as required under the applicable law or Indian accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts;
  3. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Holding Company during the year ended 31<sup>st</sup> March, 2023;

4. a) The Management of the Holding Company has represented that, to the best of its knowledge and belief, other than as disclosed in the note no. 54(7) to the standalone financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Holding Company to or in any other person or entity, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Holding Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
- b) The Management of Holding Company has represented, that, to the best of its knowledge and belief, other than as disclosed note no. 54(8) to the standalone financial statements, no funds have been received by the Holding Company from any person or entity, including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Holding Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and
- c) Based on such audit procedures that we have considered reasonable and appropriate in the circumstances; nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under 4(a) and 4(b) above, contain any

material misstatement.

5. The final dividend paid by the Holding Company during the year, in respect of the same declared in the previous year is in accordance with section 123 of the Act to the extent it applies to payment of dividend.
6. As the proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 for maintaining of books of account using accounting software which has a feature of recording audit trail (edit log) facility is applicable to the Holding Company only w.e.f. April 1, 2023, reporting under Rule 11(g) of Companies (Audit and Auditors) Rules, 2014 is not applicable for the financial year ended 31<sup>st</sup> March, 2023.
3. With respect to the matter to be included in the Auditor's Report under Section 197(16) of the Act:

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Holding Company to its directors during the year is in accordance with the provisions of section 197 of the Act read with Schedule V to the Act.

## Notes to Consolidated Financial Statements for the year ended 31st March, 2023

**1. CORPORATE INFORMATION:**

Sarla Performance Fibers Limited ('SPFL' or 'the Company') is a public limited Company incorporated and domiciled in India and has its registered office at Survey No. 59/1/4, Amil Piparia Industrial Estate, Silvassa – 396 230, U.T. of Dadra & Nagar Haveli, India. The Company is listed on the Bombay Stock Exchange (BSE) and the National Stock Exchange (NSE) in India;

The Company and its subsidiaries (collectively the 'Group') is engaged primarily in manufacturing of polyester and nylon yarns. The Company has a global presence with key subsidiaries in United States of America (USA) and British Virgin Islands (BVI) that are engaged in the manufacture and/or sale of various types of polyester and nylon yarns.

The Group caters to both domestic and international markets. The Group has four plants, 2 at Silvassa, 1 at Dadra, Union territory of Dadra and Nagar haveli and 1 at Vapi, Gujarat in India.

**2. BASIS OF COMPLIANCE, BASIS OF PREPARATION, CRITICAL ACCOUNTING ESTIMATES, ASSUMPTIONS AND JUDGEMENTS AND SIGNIFICANT ACCOUNTING POLICIES:****2.1. Basis of compliance:**

The Consolidated Financial Statements (CFS) comply in all material aspects with Indian Accounting Standards ('Ind AS') notified under Section 133 of the Companies Act, 2013 ('Act') read with Companies (Indian Accounting Standards) Rules, 2015, as amended and other relevant provisions of the Act.

**2.2. Basis of preparation and presentation:**

The CFS of the Group have been prepared under historical cost convention using the accrual method of accounting basis, except for certain financial instruments that are measured at fair values. The accounting policies are applied consistently to all the periods presented in the standalone financial statements.

All assets and liabilities have been classified as current or non-current as per the Group's normal operating cycle, para 66 and 69 of Ind AS 1 and other criteria as set out in the Division II of Schedule III to the Act.

Based on the nature of products and the time between acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current or non-current classification of assets and liabilities. Deferred tax assets and liabilities are classified as non-current assets and liabilities.

All amounts disclosed in the CFS and notes have been rounded off to the nearest lakhs as per the requirement of Schedule III, unless otherwise stated.

The CFS of the Group for the year ended 31<sup>st</sup> March, 2023 were approved for issue in accordance with a resolution of the Board of Directors in its meeting held on 13<sup>th</sup> May, 2023.

**2.3. Use of Judgements and Estimates:**

The preparation of the CFS requires management to make estimates, assumptions and judgments that affect the reported amounts of revenue, expenses, assets, liabilities and accompanying disclosures.

Uncertainty about these assumptions and estimates could result in outcomes that require material adjustments to the carrying amount of assets or liabilities in future periods. The Group continually evaluates these estimates and assumptions based on the most recently available information.

In particular, information about significant areas of estimates and judgments in applying accounting policies have most significant effect on amounts recognised in the CFS are as below:

- Estimates of useful lives and residual value of property, plant and equipment and intangible assets;
- Measurement of defined benefit obligations;
- Measurement and likelihood of occurrence of provisions and contingencies;
- Measurement of Right of Use assets and Lease liabilities;
- Measurement of recoverable amounts of cash-generating units;
- Valuation of inventories;
- Provision for loss allowances;
- Fair value measurement of financial instruments;
- Recognition of deferred tax assets.

Revisions to accounting estimates are recognised prospectively.

## Notes to Consolidated Financial Statements for the year ended 31st March, 2023

**2.4 Basis of Consolidation:**

The CFS comprise the financial statements of the Group, its subsidiaries and the Group's interest in joint ventures as at the reporting date.

**2.4.1 Subsidiaries:**

Subsidiaries include all the entities over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to variable returns through its involvement in the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. Subsidiaries are consolidated from the date on which Group attains control and are deconsolidated from the date that control ceases to exist;

**2.4.2 Joint Venture:**

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the arrangement. Interests in joint venture are accounted for using the equity method of accounting;

**2.4.3 The CFS have been prepared on the following basis:**

- The financial statements of the Group and its subsidiary companies have been consolidated on a line by- line basis by adding together of like items of assets, liabilities, income and expenses, after fully eliminating intra-group balances and intra-group transactions and resulting unrealised profit or losses, unless cost cannot be recovered, as per the applicable Accounting Standard in India. Accounting policies of the respective subsidiaries are aligned wherever necessary, so as to ensure consistency with the accounting policies that are adopted by the Group under Ind AS;
- The Financial Statements of the Subsidiary Companies used in preparation of the CFS are drawn up to the same reporting date as that of the Group. i.e. 31<sup>st</sup> March, 2023;
- The results of subsidiaries acquired or disposed of during the year are included in the CFS from the effective date of acquisition and up to the effective date of disposal, as appropriate;
- Refer note no. 50 of the consolidated financial statements for not consolidating the share of profit / loss of the joint ventures as per the 'equity method';
- CFS are presented, to the extent applicable, in accordance with the requirements of Schedule III of the 2013 Act as applicable to the Group's separate financial statements;
- Non-controlling interests in the net assets of the subsidiaries that are consolidated consists of the amount of equity attributable to non-controlling shareholders at the date of acquisition and subsequent addition of their share of changes in equity.

Profit or loss and each component of OCI are attributed to the equity holders of the parent and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance.

**2.4.4 The percentage of ownership interest of the Company in the Subsidiary Companies and Joint Ventures as on 31<sup>st</sup> March, 2023 are as under:**

Particulars	Country of Incorporation	Percentage of actual ownership interest as on

## Notes to Consolidated Financial Statements for the year ended 31st March, 2023

**2.5 Property, plant and equipment and Depreciation:**

- 2.5.1** Property, plant and equipment are stated at cost net of accumulated depreciation and accumulated impairment losses, if any;
- 2.5.2** The initial cost of an asset comprises its purchase price (including import duties and non-refundable taxes), any costs directly attributable to bringing the asset into the location and condition necessary for it to be capable of operating in the manner intended by management, the initial estimate of any decommissioning obligation, if any, and, borrowing cost for qualifying assets (i.e. assets that necessarily take a substantial period of time to get ready for their intended use);
- 2.5.3** Directly attributable costs includes cost of testing (net off proceeds from selling any items produced). Excess of net sale proceeds of items produced over the cost of testing, if any, is deducted directly from attributable costs of an item of property, plant, and equipment.
- 2.5.4** Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Group;
- 2.5.5** Spare parts which meet the definition of property, plant and equipment are capitalised as property, plant and equipment in case the unit value of the spare part is above the threshold limit. In other cases, the spare part is inventorised on procurement and charged to Statement of profit and loss on consumption;
- 2.5.6** Property, plant and equipment which are not ready for intended use as on date of Balance Sheet are disclosed as "Capital work-in-progress";
- 2.5.7** An item of property, plant and equipment and any significant part initially recognised separately as part of property, plant and equipment is derecognised upon disposal; or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset is included in the Statement of Profit and Loss when the asset is derecognised;
- 2.5.8** The residual values and useful lives of property, plant and equipment are reviewed at each financial year end and changes, if any, are accounted in the line with revisions to accounting estimates;
- 2.5.9** Depreciation is provided on a pro-rata basis on the straight line method (after retaining the estimated residual value up to 5%) based on estimated useful life prescribed under Schedule II to the Act, except for assets costing Rs. 5,000/- or less are fully depreciated or fully written off in the year of purchase;
- 2.5.10** Components of the main asset that are significant in value and have different useful lives as compared to the main asset are depreciated over their estimated useful life. Useful life of such components has been assessed based on historical experience and internal technical assessment except in respect of following useful lives of assets of a subsidiary:

Type of asset	Useful lives
Equipment	10 years

- 2.5.11** Depreciation on spare parts specific to an item of property, plant and equipment is based on life of the related property, plant and equipment. In other cases, the spare parts are depreciated over their estimated useful life based on the technical assessment;
- 2.5.12** The Group had chosen the carrying value of Property, Plant and Equipment existing as per previous GAAP as on date of transition to Ind AS i.e. 1st April, 2015 as deemed cost.

**2.6 Intangible Assets and Amortisation:**

- 2.6.1** Intangible assets are recognised only if it is probable that the future economic benefits that are attributable to the assets will flow to the enterprise and the cost of the assets can be measured reliably;
- 2.6.2** Intangible assets are carried at cost net of accumulated amortization and accumulated impairment losses, if any;

## Notes to Consolidated Financial Statements for the year ended 31st March, 2023

- 2.6.3** An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses on de-recognition are determined by comparing proceeds with carrying amount. These are included in profit or loss within other gains/(losses);
- 2.6.4** The estimated useful life is reviewed at each financial year end and changes, if any, are accounted in the line with revisions to accounting estimates;
- 2.6.5** Intangible assets are not ready for intended use as on date of Balance Sheet are disclosed as "Intangible assets under development";
- 2.6.6** The intangible assets with a finite useful life are amortised using straight line method over their estimated useful lives. The management's estimates of the useful lives for various class of Intangibles are as given below:

Asset	Useful life
Enterprise Resource Planning (ERP) software	5 years

**2.7 Investment property:**

- 2.7.1** Investment property is property (land or a building – or part of a building – or both) held either to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business, use in production or supply of goods or services or for administrative purposes. Investment properties are stated at cost net of accumulated depreciation and accumulated impairment losses, if any;
- 2.7.2** Any gain or loss on disposal of investment property is calculated as the difference between the net proceeds from disposal and the carrying amount of the investment property is recognised in Statement of Profit and Loss;

**2.8 Non-currents assets held for sale:**

- 2.8.1** Non-current assets are classified as held for sale if their carrying amounts will be recovered through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable and the asset is available for immediate sale in its present condition subject only to terms that are usual and customary for sale of such assets;
- 2.8.2** Non-current assets classified as held for sale are measured at the lower of carrying amount and fair value less costs to sell;
- 2.8.3** Non-current assets classified as held for sale are not depreciated or amortized from the date when they are classified as held for sale.

**2.9 Leases:**

The Group assesses whether a contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

To assess whether a contract conveys the right to control the use of an identified asset, the Group assesses whether

- the contract involves the use of an identified asset;
- the Group has substantially all of the economic benefits from use of the asset through the period of the lease and
- the Group has the right to direct the use of the asset.

**2.9.1 As a lessee**

The right-of-use asset is a lessee's right to use an asset over the life of a lease. At the date of commencement of the lease, the Group recognises a right-of-use asset and a corresponding lease liability for all lease arrangements in which it is a lessee, except for short-term leases and leases of low value assets. For these, the Group recognises the lease payments as an operating expense.

The right-of-use assets are initially recognised at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses, if any. Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset.

## Notes to Consolidated Financial Statements for the year ended 31st March, 2023

The lease liability is initially measured at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability and reducing the carrying amount to reflect the lease payments made.

A lease liability is remeasured upon the occurrence of certain events such as a change in the lease term or a change in an index or rate used to determine lease payments. The remeasurement normally also adjusts the leased assets.

**2.9.2 As a lessor**

A lessor shall classify each of its leases as either an operating lease or a finance lease.

Finance leases

A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of an underlying asset. Group shall recognise assets held under a finance lease in its balance sheet and present them as a receivable at an amount equal to the net investment in the lease.

Operating leases

A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership of an underlying asset. Group shall recognise lease payments from operating leases as income on straight line basis over the term of relevant lessee.

**2.10 Impairment of Non-financial Assets:**

Non-financial assets other than inventories, deferred tax assets and non-current assets classified as held for sale are reviewed at each Balance Sheet date to determine whether there is any indication of impairment. If any such indication exists or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. The recoverable amount is the higher of the asset's or Cash Generating Unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets;

When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

**2.11 Inventories:**

**2.11.1** Inventories are valued at lower of cost and net realisable value. The cost of raw material is arrived on First-in-first-out basis;

**2.11.2** Cost of raw materials and stores and spares includes all charges in bringing the goods to their present location and condition. The aforesaid items are valued at net realisable value if the finished products in which they are to be incorporated are expected to be sold at a loss;

**2.11.3** Cost of finished goods and work-in-progress include all costs of purchases, conversion costs and other costs incurred in bringing the inventories to their present location and condition. The net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and estimated costs necessary to make the sale.

**2.12 Fair Value measurement:**

**2.12.1** The Group measures certain financial instruments at fair value at each reporting date;

**2.12.2** Certain accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities;

**2.12.3** Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Group has access at that date. The fair value of a liability also reflects its non-performance risk;

**2.12.4** The best estimate of the fair value of a financial instrument on initial recognition is normally the transaction price – i.e. the fair value of the consideration given or received. If the Group determines that the fair value on initial recognition differs from the transaction price and the fair value is evidenced neither by a quoted price in an active market for an identical asset or liability nor based on a valuation technique that uses only data from observable markets, then the financial instrument is initially measured at fair value, adjusted to defer the difference between the fair value on initial recognition and the transaction price. Subsequently that difference is recognised in Statement of

## Notes to Consolidated Financial Statements for the year ended 31st March, 2023

Profit and Loss on an appropriate basis over the life of the instrument but no later than when the valuation is wholly supported by observable market data or the transaction is closed out;

**2.12.5** While measuring the fair value of an asset or liability, the Group uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation technique as follows:

- **Level 1:** quoted prices (unadjusted) in active markets for identical assets or liabilities.
- **Level 2:** inputs other than quoted prices included in Level 1 that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)
- **Level 3:** inputs for the assets or liability that are not based on observable market data (unobservable inputs)

**2.12.6** When quoted price in active market for an instrument is available, the Group measures the fair value of the instrument using that price. A market is regarded as active if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis;

**2.12.7** If there is no quoted price in an active market, then the Group uses valuation techniques that maximise the use of relevant observable inputs and minimise the use of unobservable inputs. The chosen valuation technique incorporates all of the factors that market participants would take into account in pricing a transaction;

**2.12.8** The Group regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the Group assesses the evidence obtained from third parties to support the conclusion that these valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which the valuations should be classified.

**2.13 Financial Instruments:**

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

**2.13.1 Financial Assets:****I. Initial recognition and measurement:**

Financial assets are recognised when the Group becomes a party to the contractual provisions of the instrument.

All financial assets and liabilities are recognised at fair value, except for trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient are initially measured at the transaction price determined under Ind AS 115.

Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, which are not at fair value through profit or loss, are added to the fair value on initial recognition. Financial assets are classified at the initial recognition as financial assets measured at fair value or as financial assets measured at amortised cost.

**II. Subsequent measurement:**

Financial assets are subsequently classified as measured at

- a) amortised cost
- b) fair value through profit and loss (FVTPL)
- c) fair value through other comprehensive income (FVOCI).

Financial assets are not reclassified subsequent to their recognition, except if and in the period the Group changes its business model for managing financial assets;

**a) Measured at amortised cost:**

Financial assets that are held within a business model whose objective is to hold financial assets in order to collect contractual cash flows that are solely payments of principal and interest, are subsequently measured at amortised cost using the effective interest rate ('EIR') method less impairment, if any. The amortisation of EIR and loss arising from impairment, if any is recognised in the Statement of Profit and Loss;

## Notes to Consolidated Financial Statements for the year ended 31st March, 2023

**b) Measured at FVOCI:**

Financial assets that are held within a business model whose objective is achieved by both, selling financial assets and collecting contractual cash flows that are solely payments of principal and interest, are subsequently measured at FVOCI. Fair value movements are recognized in the other comprehensive income (OCI). Interest income measured using the EIR method and impairment losses, if any are recognised in the Statement of Profit and Loss. On de-recognition, cumulative gain or loss previously recognised in OCI is reclassified from the equity to 'other income' in the Statement of Profit and Loss;

For equity instruments, the Group may make an irrevocable election (on initial recognition) to present in other comprehensive income subsequent changes in the fair value. The Group makes such election on an instrument-by-instrument basis.

If the Group decides to classify an equity instrument as at FVOCI, then all fair value changes on the instrument, excluding dividends, are recognised in the Other Comprehensive Income (OCI). There is no recycling of the amounts from OCI to Statement of Profit and loss, even on sale of investment. However, the Group may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognised in the Statement of Profit & Loss.

**c) Measured at FVTPL:**

A financial asset not classified as either amortised cost or FVOCI, is classified as FVTPL. Such financial assets are measured at fair value with all changes in fair value, including interest income and dividend income if any, recognised as 'other income' in the Statement of Profit and Loss.

**III. De-recognition:**

The Group derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the contractual rights to receive the cash flows from the asset and the transfer qualifies for derecognition under Ind AS 109.

**IV. Impairment of Financial assets:**

In accordance with Ind AS 109, the Group applies Expected Credit Loss (ECL) model for measurement and recognition of impairment loss on the financial assets measured at amortised costs and debt instruments measured at FVOCI.

Loss allowance on receivables from customers are measured following the 'simplified approach' at an amount equal to lifetime ECL at each reporting date. In respect of other financial assets, the loss allowance is measured at 12 months ECL only if there is no significant deterioration in the credit risk since initial recognition of the asset or asset is determined to have a low credit risk at the reporting date.

**2.13.2 Financial Liabilities:****I. Initial recognition and measurement:**

Financial liabilities are recognised when the Group becomes a party to the contractual provisions of the instrument.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

**II. Subsequent measurement:**

Financial liabilities are subsequently measured at amortised cost using the EIR method. Financial liabilities carried at FVTPL are measured at fair value with all changes in fair value recognised in the Statement of Profit and Loss.

**III. De-recognition:**

A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or expires;

## Notes to Consolidated Financial Statements for the year ended 31st March, 2023

**2.13.3 Financial guarantees:**

Financial guarantee contracts issued by the Group are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of the debt instrument.

Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee.

Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind AS 109 and the fair value initially recognised less cumulative amortisation;

**2.13.4 Derivative financial instruments:**

The Group uses derivative financial instruments to manage the exposure on account of fluctuation in interest rate and foreign exchange rates. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently measured at fair value with the changes being recognised in the Statement of Profit and Loss. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative;

**2.13.5 Embedded derivatives:**

If the hybrid contract contains a host that is a financial asset within the scope of Ind-AS 109, the classification requirements contained in Ind AS 109 are applied to the entire hybrid contract.

Derivatives embedded in all other host contracts, including financial liabilities are accounted for as separate derivatives and recorded at fair value if their economic characteristics and risks are not closely related to those of the host contracts and the host contracts are not held for trading or designated at FVTPL.

These embedded derivatives are measured at fair value with changes in fair value recognised in Statement of Profit and Loss, unless designated as effective hedging instruments.

Reassessment only occurs if there is either a change in the terms of the contract that significantly modifies the cash flows;

**2.13.6 Offsetting of financial instruments:**

Financial assets and financial liabilities are offset and the net amount is reported in the Balance Sheet, if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

**2.14 Revenue Recognition:****2.14.1 Sale of goods:**

Revenue is recognised upon transfer of control of promised goods to customers in an amount that reflects the consideration which the Group expects to receive in exchange for those goods.

Revenue from the sale of goods is recognised at the point in time when control is transferred to the customer which is usually on dispatch / delivery of goods, based on contracts with the customers. Export sales are recognized on the issuance of Bill of Lading / Airway bill by the carrier. Revenue from sale of power from wind operated generators is accounted when the same is transmitted to and confirmed by the Electricity Board to whom the same is sold.

Revenue is measured based on the transaction price, which is the consideration, adjusted for discounts, price concessions, incentives, and returns, if any, as specified in the contracts with the customers. Accruals for discounts/incentives and returns are estimated (using the most likely method) based on accumulated experience and underlying schemes and agreements with customers. Due to the short nature of credit period given to customers, there is no financing component in the contract.

Revenue excludes taxes collected from customers on behalf of the government.

**Contract Balances****Trade Receivables**

A receivable represents the Group's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due).

## Notes to Consolidated Financial Statements for the year ended 31st March, 2023

**Contract liabilities**

A contract liability is the obligation to transfer goods to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Group transfers goods or services to the customer, a contract liability is recognised when the payment is made, or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Group performs under the contract.

**2.14.2 Rendering of Services**

Revenue is recognized from rendering of services when the performance obligation is satisfied and the services are rendered in accordance with the terms of customer contracts. Revenue is measured based on the transaction price, which is the consideration, as specified in the contract with the customer.

Revenue from services is recognised over time by measuring progress towards satisfaction of performance obligation for the services rendered;

Revenue also excludes taxes collected from customers on behalf of government.

**2.14.3** Export incentives under various schemes notified by the Government have been recognised on the basis of applicable regulations, and when reasonable assurance to receive such revenue is established;

**2.14.4** Interest income is recognized using the effective interest rate (EIR) method;

**2.14.5** Dividend income on investments is recognised when the right to receive dividend is established;

**2.14.6** Insurance claims are accounted for on the basis of claims admitted / expected to be admitted and to the extent that the amount recoverable can be measured reliably and it is reasonable to expect ultimate collection.

**2.15 Employee Benefits:****2.15.1 Short-term employee benefits:**

Short-term employee benefits (including leave) are recognized as an expense at an undiscounted amount in the Statement of Profit and Loss of the year in which the related services are rendered;

**2.15.2 Post-employment benefits:**

The Group operates the following post – employment schemes:

- Defined contribution plans such as provident fund; and
- Defined benefit plans such as gratuity

**Defined Contribution Plans:**

Obligations for contributions to defined contribution plans such as provident fund are recognised as an expense in the Statement of Profit and Loss as the related service is rendered by the employee. The said benefits are classified as Defined Contribution Schemes as the Group has no further defined obligations beyond the monthly contributions.

**Defined Benefit Plans:**

The Group's net obligation in respect of defined benefit plans such as gratuity is calculated by estimating the amount of future benefit that the employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligation is performed at each reporting period end by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Group, the recognised asset is limited to the present value of the economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan.

The current service cost of the defined benefit plan, recognized in the Statement of Profit and Loss as part of employee benefit expense, reflects the increase in the defined benefit obligation resulting from employee service in the current year, benefit changes, curtailments and settlements. Past service costs are recognized immediately in the Statement of Profit and Loss. The net interest is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This net interest is included in employee benefit expense in the Statement of Profit and Loss.

## Notes to Consolidated Financial Statements for the year ended 31st March, 2023

Re-measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income.

**2.16 Borrowing costs:**

**2.16.1** Borrowing costs consist of interest and other costs incurred in connection with the borrowing of funds. Borrowing costs also include exchange differences to the extent regarded as an adjustment to the borrowing costs;

**2.16.2** Borrowing costs that are attributable to the acquisition or construction of qualifying assets (i.e. an asset that necessarily takes a substantial period of time to get ready for its intended use) are capitalized as a part of the cost of such assets. All other borrowing costs are charged to the Statement of Profit and Loss;

**2.16.3** Investment Income earned on the temporary investment of funds of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

**2.17 Foreign Currency Transactions:**

**2.17.1** The functional currency of the Group is Indian Rupees (₹), whereas functional currency of foreign subsidiaries is USD (\$). The presentation currency of the group is Indian Rupees (₹);

**2.17.2 Monetary items:**

Transactions in foreign currencies are initially recorded at their respective exchange rates at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at exchange rates prevailing on the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognised in Statement of Profit and Loss either as profit or loss on foreign currency transaction and translation or as borrowing costs to the extent regarded as an adjustment to borrowing costs.

**2.17.3 Non – Monetary items:**

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

**2.17.4 Foreign operations:**

For the purpose of consolidation, those operations that have a functional currency different from the Group's presentation currency, income and expenses are translated at average rates and the assets and liabilities are stated at closing rate. The net impact of such translation are recognised in OCI and held in Foreign Currency Translation Reserve ('FCTR'), a component of Equity.

**2.18 Government Grants:**

**2.18.1** Government grants are recognized where there is reasonable assurance that the grant will be received and all attached conditions will be complied with;

**2.18.2** When the grant relates to an expense item, it is recognized in Statement of Profit and Loss on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed;

**2.18.3** Government grants relating to property, plant and equipment are presented as deferred income and are credited to the Statement of Profit and Loss on a systematic and rationale basis over the useful life of the asset;

**2.19 Provisions and Contingent Liabilities:**

**2.19.1** Provisions are recognized when there is a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation;

**2.19.2** The expenses relating to a provision is presented in the Statement of Profit and Loss net of reimbursements, if any;

**2.19.3** If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost;

## Notes to Consolidated Financial Statements for the year ended 31st March, 2023

**2.19.4** Contingent liabilities are possible obligations whose existence will only be confirmed by future events not wholly within the control of the Group, or present obligations where it is not probable that an outflow of resources will be required or the amount of the obligation cannot be measured with sufficient reliability;

**2.19.5** Contingent liabilities are not recognized in the financial statements but are disclosed unless the possibility of an outflow of economic resources is considered remote.

**2.20 Taxes on Income****2.20.1 Current Tax**

Income-tax Assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, by the end of reporting period.

Current Tax items are recognised in correlation to the underlying transaction either in the Statement of Profit and Loss, other comprehensive income or directly in equity;

**2.20.2 Deferred tax**

Deferred tax is provided using the Balance Sheet method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences. Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the reporting date.

Deferred Tax items are recognised in correlation to the underlying transaction either in the Statement of Profit and Loss, other comprehensive income or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

**2.21 Segment reporting:**

The Group identifies operating segments based on the dominant source, nature of risks and returns and the internal organisation. The operating segments are the segments for which separate financial information is available and for which operating profit/loss amounts are evaluated regularly by the Managing Director (who is the Group's chief operating decision maker) in deciding how to allocate resources and in assessing performance.

The accounting policies adopted for segment reporting are in conformity with the accounting policies of the Group. Segment revenue, segment expenses, segment assets and segment liabilities have been identified to segments on the basis of their relationship to the operating activities of the segment. Inter segment revenue is accounted on the basis of transactions which are primarily determined based on market / fair value factors. Revenue, expenses, assets and liabilities which relate to the Group as a whole and are not allocable to segments on a reasonable basis have been included under 'unallocated revenue / expenses / assets / liabilities'.

**2.22 Earnings per share**

**2.22.1** Basic earnings per share are calculated by dividing the profit or loss for the period attributable to equity shareholders (after deducting preference dividends, if any, and attributable taxes) by the weighted average number of equity shares outstanding during the period;

## Notes to Consolidated Financial Statements for the year ended 31st March, 2023

**2.22.2** For the purpose of calculating diluted earnings per share, the profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effect of all dilutive potential equity shares.

**2.23 Cash and Cash equivalents:**

Cash and cash equivalents in the Balance Sheet include cash at bank, cash, cheque, draft on hand and demand deposits with an original maturity of less than three months, which are subject to an insignificant risk of changes in value.

For the purpose of Statement of Cash Flows, Cash and cash equivalents include cash at bank, cash, cheque and draft on hand. The Group considers all highly liquid investments with a remaining maturity at the date of purchase of three months or less and that are readily convertible to known amounts of cash to be cash equivalents.

**2.24 Cash Flows:**

Cash flows are reported using the indirect method, where by net profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities are segregated.

**2.25 Dividend:**

Final dividend on shares are recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the respective Group's Board of Directors.

**3 Recent Pronouncements:**

On March 31, 2023, the Ministry of Corporate Affairs (MCA) has notified Companies (Indian Accounting Standards) Amendment Rules, 2023. This notification has resulted into following amendments in the existing Accounting Standards which are applicable from April 1, 2023.

- i. Ind AS 101 – First time adoption of Ind AS** – modification relating to recognition of deferred tax asset by a first-time adopter associated with (a) right to use assets and related liabilities and (b) decommissioning, restoration and similar liabilities and corresponding amounts recognised as cost of the related assets.
- ii. Ind AS 102 – Share-based Payment** – modification relating to adjustment after vesting date to the fair value of equity instruments granted.
- iii. Ind AS 103 – Business Combination** – modification relating to disclosures to be made in the first financial statements following a business combination.
- iv. Ind AS 107 – Financial Instruments Disclosures** – modification relating to disclosure of material accounting policies including information about basis of measurement of financial instruments.
- v. Ind AS 109 – Financial Instruments** – modification relating to reassessment of embedded derivatives.
- vi. Ind AS 1 – Presentation of Financials Statements** – modification relating to disclosure of 'material accounting policy information' in place of 'significant accounting policies'.
- vii. Ind AS 8 – Accounting Policies, Change in Accounting Estimates and Errors** – modification of definition of 'accounting estimate' and application of changes in accounting estimates.
- viii. Ind AS 12 – Income Taxes** – modification relating to recognition of deferred tax liabilities and deferred tax assets.
- ix. Ind AS 34 – Interim Financial Reporting** – modification in interim financial reporting relating to disclosure of 'material accounting policy information' in place of 'significant accounting policies'.

The Group is evaluating the amendments and the expected impact, if any, on the Group's financial statements on application of the amendments for annual reporting periods beginning on or after 1 April 2023.

**Major category of plan assets as a % of total plan**

The plan assets are being managed by LIC. No further details are made available by the fund manager. (LIC)

**Sensitivity analysis**

Significant actuarial assumptions for the determination of defined obligation are discount rate and expected salary increase. The sensitivity analysis below have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

## Notes to Consolidated Financial Statements for the year ended 31st March, 2023

Particulars	(Rs in lakhs)	
	As at March 31, 2023	As at March 31, 2022
Impact on present value of defined benefit obligation:		
If discount rate is increased by 0.5%	(3.44)	(4.86)
If discount rate is decreased by 0.5%	3.78	5.03
If salary escalation rate is increased by 0.5%	3.78	4.46
If salary escalation rate is decreased by 0.5%	(3.86)	(4.06)

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumption would occur in isolation of one another as some of the assumptions may be correlated. Furthermore, in presenting the above sensitivity analysis, the present value of the defined benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognised in the balance sheet.

There was no change in the methods and assumptions used in preparing the sensitivity analysis from prior years.

**Principal Actuarial Assumptions** (Rs in lakhs)

Particulars	(Rs in lakhs)	
	As at March 31, 2023	As at March 31, 2022
Discount Rate	7.31%	6.25%
Expected return on plan assets	7.83	2.70
Expected rate of salary increase	7.00%	7.00%
Employee attrition rate	20.00%	20.00%
Mortality	Indian Assured Lives (2012-14)	Indian Assured Lives (2012-14)

Estimates of future salary increases considered in actuarial valuation take account of inflation, seniority, promotion and other relevant factors such as supply and demand in the employment market.

These plans typically expose the Company to actuarial risks such as interest rate risk and salary risk.

- (a) Interest risk: a decrease in the bond interest rate will increase the plan liability.
- (b) Salary risk: the present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, a variation in the expected rate of salary increase of the plan participants will change the plan liability.

**C Other short term employee benefits****Short term leave**

The expenses towards compensated absences (annual and short term leave) for the year ended March 31, 2023 of Rs. (9.45) lakhs (March 31, 2022: Rs. 40.51 lakhs), which is included in the 'Employee benefits expense' in the Statement of Profit and Loss.

**ii) Fair Value Measurements (Ind AS 113):**

The fair values of the Financial Assets and Liabilities are included at the amount, at which instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The Group uses the following hierarchy for determining and disclosing the fair value of financial instruments based on the input that is significant to the fair value measurement as a whole:

Level 1 :This hierarchy uses quoted (unadjusted) prices in active markets for identical assets or liabilities. The fair value of all Equity Shares which are traded on the stock exchanges, is valued using the closing price at the reporting date.

Level 2:The fair value of financial instruments that are not traded in an active market (for example, over the counter derivatives) is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on company specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in Level 2.

Level 3:If one or more of the significant inputs is not based on observable market data, the instrument is included in Level 3.

## Notes to Consolidated Financial Statements for the year ended 31st March, 2023

(Rs in lakhs)

Particulars	Fair Values	
	As at March 31, 2023	As at March 31, 2022
<b>Financial Assets at Fair Value through Profit and Loss</b>		
Investments in equity shares (Level 1)	994.36	428.94

Investments in Mutual Funds (Level 2)	7,315.77	1,479.82
<b>Total</b>	<b>9,093.33</b>	<b>3,722.68</b>

The management assessed that cash and bank balances, trade receivables, loans, trade payables, borrowings (cash credit, foreign currency loans, working capital loans) and other financial assets and liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

During the reporting period ending March 31, 2023 and March 31, 2022, there was no transfer between level 1 and level 2 fair value measurement.

**Key Inputs for Level 1 and 2 Fair valuation Technique:**

1. Mutual Funds : Based on Net Asset Value of the Scheme (Level 2)
2. Derivative (forward) contracts : The fair value is determined using quoted forward exchange rates at the reporting date. (Level 2)
3. Debentures: Based on comparable instruments (Level 2)
4. Listed Equity Investments: Quoted Bid Price on Stock Exchange (Level 1)

**47 Financial risk management objectives (Ind AS 107)**

The Group's Board of Directors has overall responsibility for the establishment and oversight of the Group's risk management framework.

The Group's risk management policies are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls and to monitor risks. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities.

The key risks and mitigating actions are also placed before the Audit Committee of the Group.

The Group has exposure to the following risks arising from financial instruments:

- A) Credit risk;
- B) Liquidity risk; and
- C) Market risk

**A Credit risk**

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations. Credit risk arises primarily from financial assets such as trade receivables, investments in mutual funds, preference shares, debentures, derivative financial instruments, other balances with banks, loans and other receivables.

**Trade and other receivables**

Customer credit is managed by each business unit subject to the Group's established policies, procedures and control relating to customer credit risk management. Trade receivables are non-interest bearing and are generally on 0 to 180 days credit term. Credit limits are established for all customers based on internal rating criteria. Outstanding customer receivables are regularly monitored.

An impairment analysis is performed at each reporting date on an individual basis for major clients. In addition, a large number of minor receivables are grouped into homogenous groups and assessed for impairment collectively. The Group does not hold collateral as security. The Group has no concentration of credit risk as the customer base is widely distributed both economically and geographically.

## Notes to Consolidated Financial Statements for the year ended 31st March, 2023

The Group measures the expected credit loss of trade receivables based on historical trend, industry practices and the business environment in which the entity operates. Loss rates are based on actual credit loss experience and past trends.

The following table provides information about the exposure to credit risk and Expected Credit Loss Allowance for trade and other receivables:

Reinstatement of provision	-	0.98
<b>Closing provision</b>	<b>81.64</b>	<b>345.52</b>

**Other financial assets**

The Group maintains exposure in cash and cash equivalents, term deposits with banks, investments in Debentures, Preference shares, mutual funds and derivative contracts. The Group has diversified portfolio of investment with various number of counter-parties which have secure credit ratings hence the risk is reduced. Individual risk limits are set for each counter-party based on financial position, credit rating and past experience. Credit limits and concentration of exposures are actively monitored by the Management of the Group.

**B Liquidity risk**

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset.

Liquidity risk is managed by Group through effective fund management. The Group's principal sources of liquidity are cash and cash equivalents, borrowings and the cash flow that is generated from operations. The Group believes that current cash and cash equivalents, tied up borrowing lines and cash flow that is generated from operations is sufficient to meet requirements. Accordingly, liquidity risk is perceived to be low.

The following are the remaining contractual maturities of financial liabilities at the reporting date. Amounts disclosed are the contractual un-discounted cash flows.

**C Market risk**

Market Risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: currency risk, interest rate risk and price risk.

**I Currency Risk**

The Group is exposed to currency risk on account of its operating and financing activities. The functional currency of the Group is Indian Rupee. Group's exposure is mainly denominated in U.S. dollars (USD). The USD exchange rate has changed substantially in recent periods and may continue to fluctuate substantially in the future. The Group has put in place a Financial Risk Management Policy to Identify the most effective and efficient ways of managing the currency risks. The Group uses derivative instruments (mainly foreign exchange forward contracts) to mitigate the risk of changes in foreign currency exchange rate.

The Group does not use derivative financial instruments for trading or speculative purposes.

**Exposure to currency risk**

Notes to Consolidated Financial Statements for the year ended 31st March, 2023

**Sensitivity analysis**

The following table details the Group's sensitivity to a 5% increase and decrease in the Rupee against the relevant foreign currencies. 5% is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the reasonably possible change in foreign exchange rates. This is mainly attributable to the net exposure outstanding on receivables or payables in the Group at the end of the reporting period. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the period end for a 5% change in foreign currency rate. This analysis assumes that all other variables, in particular interest rates, remain constant and ignores any impact of forecast sales and purchases. In cases where the related foreign exchange fluctuation is capitalised to fixed assets or recognised directly in reserves, the impact indicated below may affect the Group's income statement over the remaining life of the related fixed assets or the remaining tenure of the borrowing respectively.

**Impact on profit or loss (Rs in lakhs)**

EURO	(148.22)	(407.15)	148.22	407.15

**II Interest rate risk**

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in prevailing market interest rates. The Group's exposure to the risk due to changes in interest rates relates primarily to the Group's short-term and long term borrowings with floating interest rates. The Group constantly monitors the credit markets and revisits its financing strategies to achieve an optimal maturity profile and financing cost.

The Group's investments in term deposits (i.e. certificates of deposits) with banks, investments in preference shares, mutual funds and debentures are at fixed interest rate and therefore do not expose the Group to significant interest rate risk.

The matter being subjudice, the financial performance of both the JV's are not taken in to consideration while preparing the Consolidated Financial statements. Also Financial statements of Sarla Tekstil have also not been considered on account of non receipt of the same.

**51** FY. 2020-21, the subsidiary (SOHL) had made impairment provision for its loans and advances due to which its net worth has become negative. Looking to business prospects and actual profits, financial statements of SOHL have been prepared based on 'going concern' basis.

**52** The subsidiary (Sarlaflex, Inc.) has suspended its manufacturing operations since December 2017. The management is confident that with the recent trade sanctions being imposed in the US, the operations of the subsidiary will be profitable. The management is monitoring the situation on a continuous basis and is confident that there would no need for an impairment at this stage. Accordingly, the financial statements of the subsidiary have been prepared based on 'going concern' assumption.
